August 8, 2006

Dear Fellow Chemical Engineer:

Come January 31 to February 3, 2007 we shall be having our 68<sup>th</sup> PIChE National Convention at the Manila Pavilion Hotel with the theme "**Industry and Academe: Synergizing towards Global Competitiveness**". This convention offers a lot of new and challenging ideas. It also enhances the cooperation of both Industry and Academe in achieving these goals as it will be jointly hosted by the PIChE Polo Chapter and the PIChE Metro Manila Academe Chapter.

Your presence in this convention would play a great role in preparing the Filipino "Chemical Engineer of the future". The convention promises to be more participative and has lined up several technical sessions which would be most interesting to the Chemical Engineers. Aside from these, radical changes in the convention schedule were made to make it more convenient and also practical to all the participants.

As early as now rigorous preparations for the convention are underway and it would be of great help to the organizers if you can register early so that resources can be better optimized for those who have committed to attend the convention. We have set the deadline for registration on December 1, 2006. Registration is on first-come first-served basis as there are only 800 slots available. Do check out the special discounts for the early registrants.

Attached are: 1) the tentative convention schedule of activities, 2) Convention registration fees and discounts, and 3) the reply form which we hope to receive the soonest possible time. Should you express your intention to participate in the 68<sup>th</sup> PIChE National Convention, we shall be sending you further updates on the convention either via e-mail, text messages, by telephone or by mail.

Your prompt and early reply will be highly appreciated.

Respectfully,

ENGR. CEZAR S. DE LA CRUZ  
President, Polo Chapter

ENGR. VILLAMOR C. TILA  
68<sup>th</sup> PIChE Convention Chair

ENGR. LEONILA C. ABELLA, PhD  
President, Metro Manila Academe Chapter
