

# Collection Databases All in One System

The CDS-ISIS OPAC system was phased out effective this June. All the records were migrated to the Millennium Integrated Library System. All the seven (7) databases namely: Books, Periodicals, Audiovisuals, Theses, Articles, Archival Materials and Faculty Publications could now be searched under one system. Additional features were also added like filling your suggestion for a purchase and sending your comments and suggestions about the library services, programs and

policies. Least you forget, view the new acquired materials and the featured list. Check also the materi-

als that are placed on reserve. Simply visit the Millennium website <http://www.lib1000.dlsu.edu.ph>

## More Equipment and Helpful Gadgets for Teachers @ IMS

The Instructional Media Services has purchased two units of high powered wireless sound system and ten (10) units of voice amplifiers. The wireless sound system has a wireless microphone and a battery that could last as long as 12 hours and could be used for a bigger crowd. The voice amplifier would help reduce the

professor's vocal stress and strain as it can boost vocal output as much as six times louder. It is lightweight and has a neck-worn style microphone. The rechargeable power system provides 10 hours of continuous use. The use of these items are subject to the usual circulation policies of the IMS.

## IMS Takes Charge of Function Rooms

Effective this school year, five (5) function rooms and facilities are placed under the care of the Instructional Media Services (IMS). These function rooms are **Ariston Estrada, Waldo Perfecto, and Tereso Lara Seminar Room, Pablo Nicolas Auditorium, and William Shaw Little**

**Theater.** These rooms used to be under the Physical Facilities Office while the equipment therein are under the custody of IMS. This move makes it easy for the users as they will now have only one place to go to file their request for use of the facilities and the equipment that they will need.

## Book Selection at the Fair

Faculty members are invited to the 9th Philippine Academic Book Fair on July 11-15, 2005 from 9:00 A.M. - 7:00 P.M. at Clamshell 2, Gen. Luna St. cor. Anda St. Intramuros, Manila with the theme "Promoting reading for global competitiveness". Fifty booths of the most reputable booksell-

ers and international publishers await selectors as they showcase the latest, relevant, quality and fairly priced books on almost all subject areas.

Scheduling of trips to the venue is arranged by **Mr. Ric Rodriguez** with contact local number 610.

## Webliography: Anyone?

The library introduces webliography service starting this school year. Webliography is an electronic bibliography of websites, webpages, and web documents. It attempts to supplement the resources available in the library on a particular topic. Sites or pages may include selected articles, researches, working papers, studies and reports on a given topic. Bibliographic librarian, **Marita G. Valerio**, handles the service. She may be contacted at [valeriom@dlsu.edu.ph](mailto:valeriom@dlsu.edu.ph) for suggested topic to work on.

## Recommend Books/Materials for Purchase On-line

Library users may now request books to be purchased via on-line. Please go to <http://lib1000.dlsu.edu.ph/acquire> and provide the necessary information such as author, title, publisher and where the material is available. All requested materials are subject to the approval of the corresponding department chair and in accordance to the collection development policies such as relevance to the curricular offerings, timeliness of the publication, authoritativeness of the author, literary quality, availability, format, price, strength of the present holdings, potential usage, accuracy among others.

The screenshot shows a web browser window titled "Millennium Web Catalog - Microsoft Internet Explorer". The address bar shows "http://lib1000.dlsu.edu.ph/acquire". The page header includes "De La Salle University Library" and "WEB OPAC". The main content area is titled "Suggest a Title for Purchase" and contains the following fields and buttons:

- Additional items library should acquire

# Usage Statistics of On-Line Subscriptions for June

JSTOR topped the most frequently searched database in June 2005. JSTOR is JSTOR is a not-for-profit organization. It is not a current issues database. Its dual mission is to create and maintain a trusted archive of important scholarly journals and to

provide access to these journals as widely as possible. It offers researchers the ability to retrieve high-resolution, scanned images of journal issues and pages as they were originally designed, printed, and illustrated. Because of JSTOR's archival mission, there is a

gap, typically from 1 to 5 years, between the most recently published journal issue and the content available in JSTOR. For lists of currently available titles and collections, please refer to: <http://www.jstor.org/about/collection.list.html>
