

Social Sciences Book Collection Assessed

by Ana Maria B. Fresnido
Library Director

Part of the Library's continuing collection development program is the periodic evaluation of its collection. This is evidenced by a number of collection assessments already undertaken by the University Library.

The first collection-centered assessment was conducted in 2001 with emphasis on the quality of the collection. It was decided that the list checking method be employed and that the *Books for College Libraries* published in 1988 be used in carrying out the assessment. A re-assessment of the Technology and Engineering collection followed in 2004, and in 2005 the Education collection was also

evaluated, applying the same method for both, which is the list checking, but using a different list, *The Best Books for Academic Libraries (BBAL)* published in 2003. Subsequently, the evaluation of Religion and Philosophy as well as the History, and the Science, Technology, Agriculture collections (see July Issue: <http://www.dlsu.edu.ph/library/newsette/200607.pdf>) were also completed in 2006.

In an effort to complete the re-assessment of the whole collection, it was decided that the project be continued for the remaining collections.

This study was carried out to assess the extent of best titles included in the social science book collection of the DLSU Library. Specifically, this study aims to:

1. Provide a quantitative and qualitative profile of the DLSU Library's book holdings in the social sciences.
2. Compare quantitatively and qualitatively the DLSU book holdings in social science against the titles cited in BBAL.
3. Seek answers to the following:

social science.

Results of the study will provide a view on the adequacy of the social science collection, specifically in terms of quality, which in turn may be used in the development of an intelligent and realistic acquisition plan. The study will also serve as an aid in justifying increased budget for inadequate collections.

Only volume 6 of the Best Books for Academic Libraries which is the Social Science volume was used for this study. Entries in this volume correspond to the following class letters/subjects. See Table 1 below.

In an attempt to measure the quality of the collection the checklist method was used for this study. List checking is carried out by checking the library's holdings against an authoritative list. *The Best Books for Academic Libraries* (BBAL) was selected as the standard tool because the selections not only best fit academic libraries like the DLSU Library, but also list the most recent editions for each title cited in the

work. All entries in volume 6 of the BBAL were searched/matched via the Millennium database using the title approach. A check mark was written on the left hand corner of the entry beside the first letter of the access point to indicate exact matches. For entries with other editions, the date of the edition(s) available in the library's holdings was indicated. Those with no markings are entries not available in the library's holdings. The total number of entries was counted by page and summed up. The entries were then tallied by page using a form devised by the researcher.

It was found out that the total number of entries in *The Best Books for Academic Libraries* (BBAL) for social science is 9,734 whereas the DLSU Library's holdings on the same discipline are 39,741 titles. Hence in terms of quantity, the DLSU Library's holding is 75.5% more than those cited in the BBAL.

The distribution of entries under the different topics in social sciences listed in the BBAL showed strength in Industries, Land use, Labor (HD) with 13.7% or a total

of 1,335 entries; Economic history and conditions (HC) followed making up 12.5% (1,218 entries) of the list; Social pathology, Social and public welfare, Criminology (HV) comprised 11.6% (1,131) of the list while The Family, Marriage, Women (HQ) has 1,050 entries or 10.8%. The topic with the least number of entries in the BBAL is Societies: Secret, Benevolent, etc. (HS) with only 14 entries or 0.14% of the total listings.

Strength of the DLSU Library holdings, on the other hand, is in Commerce (HF) with 8,714 titles consisting 21.9% of the total social science holdings. Similarly, however, Industries, Land use, Labor (HD) (8,636 titles 21.7%), Economic history and conditions (HC) (2,937 titles or 7.4%) and The Family, Marriage, Women (HQ) (2,490 or 6.27%) were also among the DLSU Library's strongest collections. Alternatively, the Library's weakest collection, under the social sciences is Mathematical geography, Cartography with only 18 titles (.05%) available. Please see Table 2 on the next page.

The total percentage of availability of the DLSU Library's collection against those cited in the BBAL is only 12.29%, that is, equivalent to 1,196 matches out of the total 9,734 entries listed in the BBAL. Of the total 1,196 matches, 984 (82.7%) are exact matches while 212 (17.73%) are titles where the Library has either an earlier or a more recent edition.

From among the topics under

the social sciences, Commerce (HF) which happened to be the Library's strongest holding, had the highest percentage of availability which is 24.1% (114 matches out of 473); followed by Human ecology, Anthropogeography (GF) with 22.73% of availability equivalent to 10 matches out of 44 entries. Statistics (HA) ranked third with 22.22% of availability corresponding to 6 matches out of

27 entries cited in the BBAL; then Social science (General) with 21.21% of availability (21 matches out of 99 entries) and Sociology (HM) with 61 matches out of 293 entries or 20.82% of availability. Socialism, Communism, Anarchism had the lowest percentage of availability which is 4.26% or 4 matches out of 94 entries listed in the BBAL. Table 3 presents the data. Please

TOTAL		9734	984	212	1196	8538	12.29

The following are the summary of findings:

1. As of July 2006, the total number of the DLSU Library's book holdings in social science is 39,741 titles and 59,305 volumes
2. The Library's social science book collection is strong in Commerce (HF) and weak in

Mathematical geography, Cartography (GA)

3. In terms of quantity, the DLSU Library's holdings is 75.5% more than those cited in the BBAL
4. The percentage of availability of the DLSU Library's social science collection compared to those listed in the BBAL is

12.29% or 1,196 out of 9,734 titles

5. Commerce (HF) has the highest percentage of availability which is 24.1% or 114 matches out of 473 titles
6. Socialism, Communism, Anarchism (HX) has the lowest percentage of availability which is 4.26% or 4 matches out of 94

Social ... from page 3

- title entries
7. From SY2001/02 up to SY 2005/06 (last five years), the total budget allotted for the purchase of the social science collections (i.e. books and periodicals) is Php14,068,133.10
 8. Total amount spent, on the other hand, for social science books alone is Php17,869.92
 9. The average acquisition of social science books for the last five years (SY2001/02 to SY 2005/06) is 1,258 volumes a year
 10. The average cost of social science books for the last

five years (SY2001/02 to SY 2005/06) is Php2,127.41

Conclusions

1. Based on the titles cited in the BBAL, the DLSU Library's holdings for social science are more than adequate in terms of quantity but are very deficient in terms of quality.
2. It will take 6 and a half years for the DLSU Library to acquire the remaining titles listed in the BBAL that are not available in the Library
3. Acquisition of social science titles prescribed by BBAL not available in the DLSU Library's collection requires

a very high cost.

Recommendations

1. Determine and prioritize which among the titles not in the collection should be acquired based on the Library's selection criteria.
2. Look for other authoritative selection tools in recommending books for acquisition to further enhance the quality of the social science collection.
3. Consider conducting a follow-up assessment of the collection using a client-centered technique (e.g. usage assessment) to find out if there really is a need to acquire the titles cited in the BBAL.

New Services Available @ the WEBOPAC

The Library is pleased to announce the availability of the following features in the University Library's Online Public Access Catalog (WEBOPAC).

1. **Online Reservation of Books** - allows a user to reserve books that are out on loan.
2. **Personal Borrowing History** - allows a user to keep or view a list of all books/items checked out under his/her name. This shows only the list of books borrowed from the time the user has activated this feature.

Librarians' Seminar in Naga

By: Elizabeth B. Padilla and Jocelyn Balangue

To address the dearth of research in library and librarianship in the Philippines, the **Philippine Association of Academic and Research Librarians (PAARL)** in cooperation with the **Fr. James O'Brien Library** of the Ateneo de Naga University conducted a three-day national seminar workshop on **"Empowering Information Professionals to Make a Difference,"** which was held at the Madrigal Center for Social Entrepreneurship of the university from October 23 to 25.

Attended by 89 librarians from both public and private institutions, including participants from DLSU-Manila, namely: **Yolanda F. Odsinada, Jocelyn T. Balangue, Elizabeth B. Padilla, Agnes S. Barsaga, Purisima B. Fernando, Cecilia P. Manongsong, Annabelle Aliwalas, Bob Cauilan, Rolando Masindo, and Ana Maria B. Fresno** as one of PAARL board members, the seminar workshop focused on contributing research to librarianship and motivating librarians to conduct research.

The resource speakers were both from DLSU— **Ms. Fe Angela Verzosa**, former Archivist of University Library and **Dr. Flordeliza Reyes**, distinguished professor of the College of Education.

Ms. Verzosa lectured on the importance of library research and shared her insights on why librarians do not conduct research. Dr. Reyes, on the other hand, shared her expertise by discussing the basics of research and introducing the APA style. She also presented different research methods, as well as different survey instruments which may be useful to librarians and challenged and encouraged the participants to conduct research.

The seminar was indeed very informative and was very well appreciated not only by the participants who are in the thesis writing stage or in the process of writing their thesis proposals but also by those librarians who have already finished their master's degree.

Number theory : an introduction to mathematics. by William A. Coppel. QA241 .C66 2006. 3rd floor, Circulation.

Representation theory of finite groups : algebra and arithmetic. Steven H. Weintraub. QA176 .W44 2003. 3rd floor, Circulation.

Shape : talking about seeing and doing. George Stiny. QA445 S78 2006. 3rd floor, Circulation.

Schaum's easy outlines of geometry : based on schaum's outline of [theory and problems] of geometry. by Barnett Rich ; revised by Philip A. Schmidt ; abridgement editor, George J. Hademenos. QA 445 R5 2001. Andrew Gonzalez Hall Library.

Young children continue to reinvent arithmetic—2nd grade— : implications of Piaget's theory. Constance Kamii with Linda Leslie Joseph. QA135.6 .K35 2004. 3rd floor, Circulation.

Young mathematicians at work : constructing fractions, decimals, and percents. Catherine Twomey Fosnot, Maarten Dolk. QA137 .F67 2002. 3rd floor, Circulation.

QC – Physics

Computer algebra recipes : an introductory guide to the mathematical models of science. Richard H. Enns, George C. McGuire. QC30 .E56 2006. 3rd floor, Circulation.

The discovery of subatomic particles. Steven Weinberg. QC793.2 .W44 2003. 3rd floor, Circulation.

Introduction to plasma physics : with space and laboratory applications. D.A. Gurnett and A. Bhattacharjee. QC718 .G87 2005. 3rd floor, Circulation.

Introductory computational physics. Andi Klein and Alexander Godunov. QC20.7.E4 K54 2006. 3rd floor, Circulation.

Molecular nanomagnets. Dante Gatteschi, Roberta Sessoli, Jacques Villain. QC753.2 .G37 2006. 3rd floor, Circulation.

Nuclear and particle physics. B.R. Martin. QC776 .M37 2006. 3rd floor, Circulation.

Nuclear power : the study of quarks and sparks. J.S. Kidd and Renee A. Kidd. QC792.5 .K54 2006. 3rd floor, Circulation.

Nuclear spin relaxation in liquids : theory, experiments, and applications. Jozef Kowalewski and Lena Maler. QC173.4.R44 K68 2006. 3rd floor, Circulation.

Quantum gravity research trends. Albert Reimer, editor. QC178 .Q8 2006. 3rd floor, Circulation.

Semiconductor physics and devices : basic principles. Donald A. Neamen. QC611 .N4 2003. 3rd floor, Circulation.
The theory of almost everything : the standard model, the unsung triumph of modern physics. Robert Oerter. QC794.6.S75 O47 2006. 3rd floor, Circulation.

QD – Chemistry

Frontiers in crystal engineering. edited by Edward R.T. Tiekink, Jagadese J. Vittal. QD921 .F76 2006. 3rd floor, Circulation.

QE – Geology

Fundamentals of seismic wave propagation. Chris H. Chapman. QE538.5 .C4 2004. 3rd floor, Circulation.

QK – Botany

The ecology of phytoplankton. C.S. Reynolds. QK933 .R49 2006. 3rd floor, Circulation.

Fungi in biogeochemical cycles. edited by Geoffrey Michael Gadd. QK604.2.E26 F86 2006. 3rd floor, Circulation.

QH – Natural history (General). Biology (General)

BioInquiry : making connections in biology. Nancy L. Pruitt, Larry S. Underwood, William Surver. QH308.2 .P78 2003. 3rd floor, Circulation.

Biology : exploring life. Neil C. Campbell, Brad Williamson, Robin J. Heyden. QH308.2 .C36 2004. Andrew Gonzalez Hall Library.

Biology, the unity and diversity of life. Cecie Starr, Ralph Taggart ; Lisa Starr, biology illustrator. QH308.2 .S67 2004. Andrew Gonzalez Hall Library.

Data and data handling for A2 level biology. Bill Indge. QH308.7 .I54 2004. 3rd floor, Circulation.

Environmental monitoring. S. K Agarwal. QH541.15. M64 A3 2005. 3rd floor, Circulation.
