## INTRODUCTION

The Physics Society (PhySoc) continuously keeps pace with the scientific and technological advances of the present times. The society upholds the primary goal of instilling appreciation and a deeper understanding of physics to their members and to the university as well. The society is created to assist students of physics, and lives up to its commitment of serving side by side with the Physics Department.

The Physics Society can be thought of as the coordinating organization in De La Salle University (DLSU) within the Council of Student Organization (CSO), as well as a member of the Philippines' national physics organization, Samahaan ng Maga-aral sa Pagpapaulad ng Pisika (SMPP). Its goals aim to cater in the following areas:

- *Providing leadership on matters related to Physics and Physics education to both Physics degree students and enthusiasts.*
- *Giving service to local and national students in promoting and teaching the discipline of physics.*
- *Guiding the research agenda to students taking up physics, in order for studies to be relevant to the present times.*
- *Cater activities, competitions, summits, and programs that organizes the youth in promoting a better environment with the use of the knowledge and discipline in different areas of Physics.*

## REPRESENTATIVES

Currently, Physics Society represents more than 250 members in DLSU. To become a member of Physics Society, a member must pay an annual membership to avail of the benefits and perks provided by the union of the CSO. A member must adopt and adhere to the Physics Society's Constitution. The ultimate goal of the organization supports DLSU's goal of "Achievers for God and Country."

## ORGANIZATIONAL STRUCTURE

The organizational structure of Physics Society generally follows the hierarchical structure, which is governed by the President. The organization's Faculty Adviser together Student LIFE under the Student Affairs Office of DLSU guides the organization in creating quality activities that aims to improve the social and environmental problems in our society.

## PHYSICS SOCIETY'S ACTIVITIES AT A GLANCE

The Physics Society's goals in attaining *Achievers for God and Country* are divided in different types of activities, mainly focusing on academics then extra-curricular. Different goals are presented to the University for a specific activity, examples of these goals are:

- *Promote physics in the lives of the people*
- *Expose the university and community to the environmental awareness*
- *Promote practical use of science in raising the people's awareness*
- *Promote energy sustainability in the country*
- *Strengthen existing linkages with other physics organization from other universities.*
- *Provide quality assistance to the members and other students taking up physics subjects*
- *Promote unity among the different Physics batches & Encourage member participation*
- *Promote unity and camaraderie among the members of the physics society*
- *Promote interdisciplinary approach of physics in liberal arts*
- *Promote relevance of Physics in applied fields of liberal communication*

The goals presented are one of the main goals per year by the Physics Society, different goals cater to different areas as Physics Society collaborates with different fields of studies. These goals are then supported by objectives

and annual planning by the leaders of the organization, in which they find relevant ways on how to tackle and make the activities relevant and beneficial.

The division of academic activities and extra-curricular activities are divided into different sets of activities, these are:

- Academics
  - Competitions, Quiz Bees, debate, etc.
  - Tutorials, Reviewer and study sharing, & research agendas
  - Forums, Field Trips, Plant Tours, Summits, Workshops, & Seminars
  - Inter-university collaboration, weekly and monthly gathering
- Extra-Curricular
  - Social Responsibility, Volunteering, Outreach efforts
  - Sports Fests
  - Social Gathering and parties
  - Leadership training, Retreats, Recollection
  - Film viewing, movie review
  - Novelty Item Selling

The activities listed above are presented in the next few pages as a glance of the efforts of Physics Society's activities.

## COMPETITIONS

**LET THE LABAN BEGIN!**

# PHYSIK LABAN

**THE 7TH SMPP INTER-COLLEGIATE Physics Quiz Bee**

**NOV 23 SAT**

**8:00AM – 4:00PM**  
OZ AVR & SV MEZZANINE  
ADAMSON UNIVERSITY

OPEN FOR ALL COLLEGES AND UNIVERSITIES  
3 MEMBERS PER TEAM  
ELIMS & FINAL ROUNDS

**REGISTRATION FEE: P300 PER TEAM**

1ST PRIZE: PHP 7,000  
2ND PRIZE: PHP 5,000  
3RD PRIZE: PHP 3,000

**REGISTER NOW @ <http://goo.gl/dSBzin> until Nov. 16, 2013**

**COVERAGE**  
MECHANICS  
HEAT & THERMODYNAMICS  
ELECTRICITY & MAGNETISM  
WAVES & OPTICS

FOR FURTHER DETAILS, PLEASE CONTACT 09067793979 & VISIT <http://goo.gl/dSBzin>

## PHYSICS SOCIETY SUMMARY REPORT (A.Y. 2013-2014)

The Physics Society has been improving in the past few generations of student leaders, being more competitive to the needs of its members and increasing the locations of influence of the organization. This report presents a brief summary of the improvements of the organization as a whole and shows the activities that are documented within the Student Affairs' CSO of DLSU.

### OFFICERS A.Y. 2013-2014

Contact details of the officers of A.Y. 2013-2014 are presented below, the email and cellphone number of the officers are updated as of November 2013.

Position	Given Name	Last Name	Contact #	Email

## HIGHLIGHTS OF ACTIVITIES AND IMPROVEMENTS OF THE ORGANIZATION

Physics Society aims to streamline its activities with the current issues in the national scene of the Philippines as well as inside DLSU. This report focuses on the brief highlights done on A.Y. 2013-2014. A short summary of the identity of the organization are presented below:

- Member Population: Membership increased from an average of 80-100 (Before 2013) persons to 250-270 persons (A.Y. 2013-2014 & A.Y. 2014-2015)
- Financial Capacity: As member population increased, the financial capabilities of the organization increased, as well. Several sponsors have also supported the activities of the organization in order to improve the quality and purchasing power of the organization.

M.M Phone: 524-4611 loc. 450 Fax no: 536-0229 [physoc@dlsu.edu.ph](mailto:physoc@dlsu.edu.ph)

- **Member Participation and Appreciation:** Member participation increased due to the collaboration with the Physics Department as well as the increase in helpful benefits given to members in order to increase their academic standing. Generally, the members felt like that the organization has been more active than it was, this active participation is due to the increase in students enrolling in Physics subjects as well as the increase in membership.
- **Activities:** The activities this current year focused more on the core activities of the organizations like academic reviews and studies, competitions, workshops and seminars, and social gatherings.

Activities/ Participation/Action-Taken	Highlights/ Improvements
Information Dissemination	Text blasts, Email blasts, room-to-room, and person-to-person conversation were used to increase the awareness of the activity of the organization.
University Activity Participation	University wide activities, and college activities are participated by officers and members of the organization (Job expo, Calamity/Relief Operations, FTK, etc.)
Compliance with the activities and rules of the CSO and SLIFE	Council Board meetings, tie up activities, CSO activities were all attended.
	GOSM rules, and Mid-year assessment was followed.
	SLIFE services as a formator rather than as an activity approval office was utilized.
	Guidance was sought out both from Student Affairs and SLIFE when facing conflict or problem within the organization.
	Suggestions and improvements for the CSO/SLIFE were presented in a

	dialogue and consultation.
External Participation	Partnership with SMPP activities and its member organization was exercised to every activity in order to increase the participation and partnerships with external linkages.
	Partnership with the Physics department greatly helped the attendance of some of the activities of the organization.
	International partnership with the SPS was initiated.
	International partnerships from other universities
Default Activities of the Organization (Reviewer Distribution, Tutorials, Academic Related Activities)	Field trips and reviewers were well received by the members of the organization as it had helped them appreciate the value of physics, and increase their academic standing.
Extracurricular Activities	Leadership and organizational development activities of the organization are enhanced.
	Fun activities like bowling, jamming, etc., were made.
	Officers, members, and other partnerships were established.
Finance handling	Handling of finance was stable at first but dwindled down as time passes by.
	Major income of the organization was from the sponsorship in Physiklaban HS, and Annual Recruitment week.
Managing of Documents	Documents were well kept.
