

**ASSESSING IMPACTS OF THE 2<sup>ND</sup>  
CORDILLERA HIGHLAND AGRICULTURAL  
RESOURCE MANAGEMENT PROJECT  
(CHARMP2)**

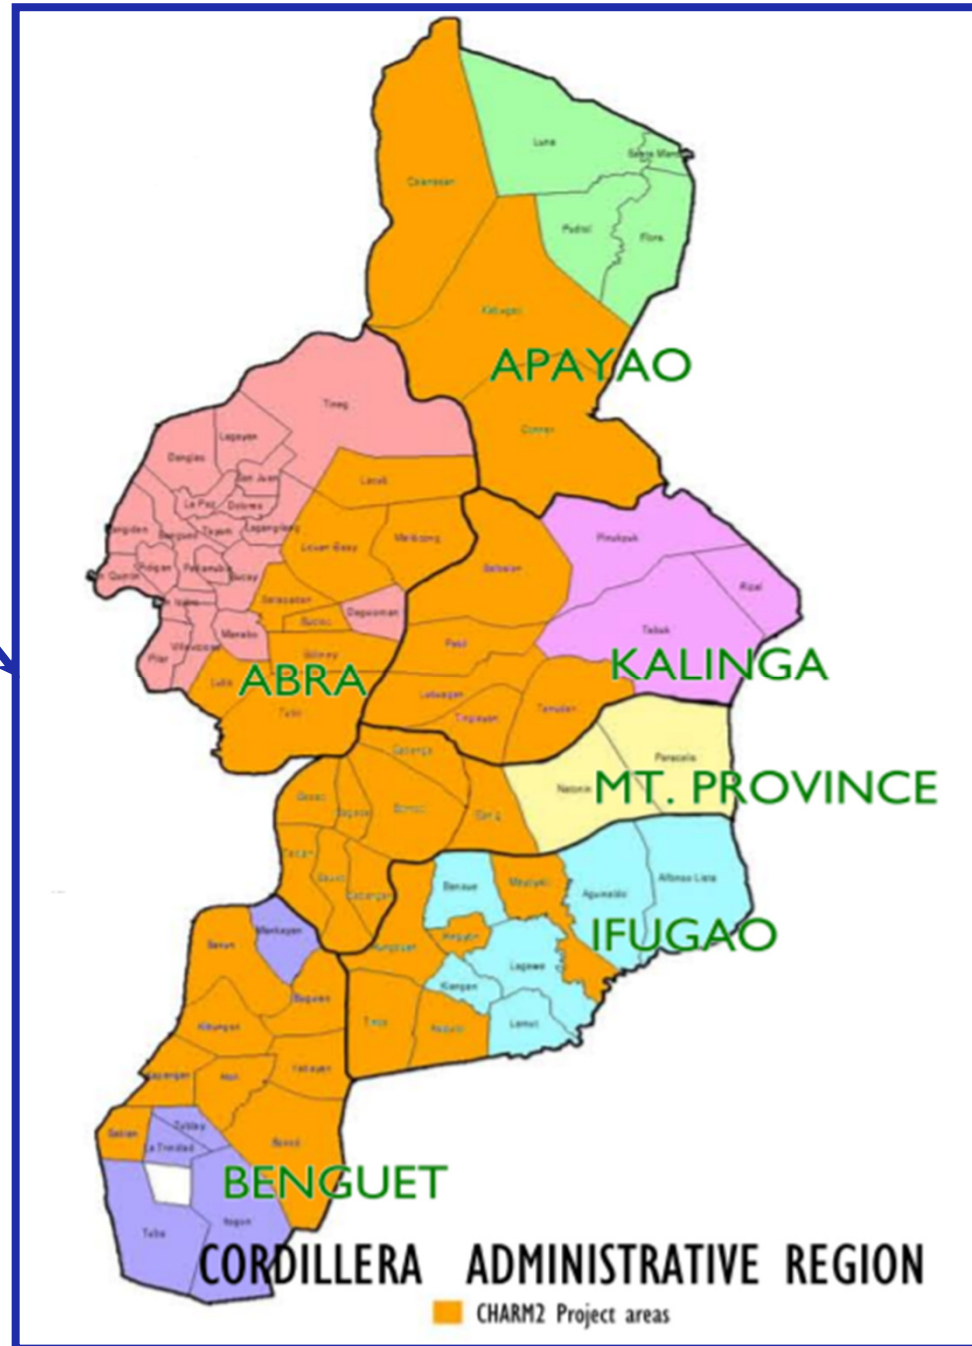

## OUTLINE

- Background
- Study Framework and Methodology
- Results
- Conclusions

# CHARMP 2 BACKGROUND

## GOAL OF THE PROJECT

- Poverty reduction and improved quality of life for rural highland indigenous peoples communities in the Cordilleras (CAR)

# PURPOSES

- Increased family income of the rural poor areas
- Improved land tenure security
- Ensured food security
- Conserved and improved highland forests and watersheds based on sustainable practices

## STRATEGIES

- Indigenous Peoples Participation
- Value Addition
- Consolidation
- LGU Implementation
- Gender Mainstreaming
- Knowledge Management

# IMPLEMENTING AGENCIES/PARTNERS

- Lead Project Agency - Department of Agriculture
  - DA-RFU -CHARM PSO
  
- Co-Implementing Agency
  - NCIP-CAR
  
- Participating (Support) Agencies
  - DENR-CAR
  - NIA-CAR
  
- Partners
  - Local Government Units (LGUs)
  - Non-Government Organizations
  - Peoples' Organization

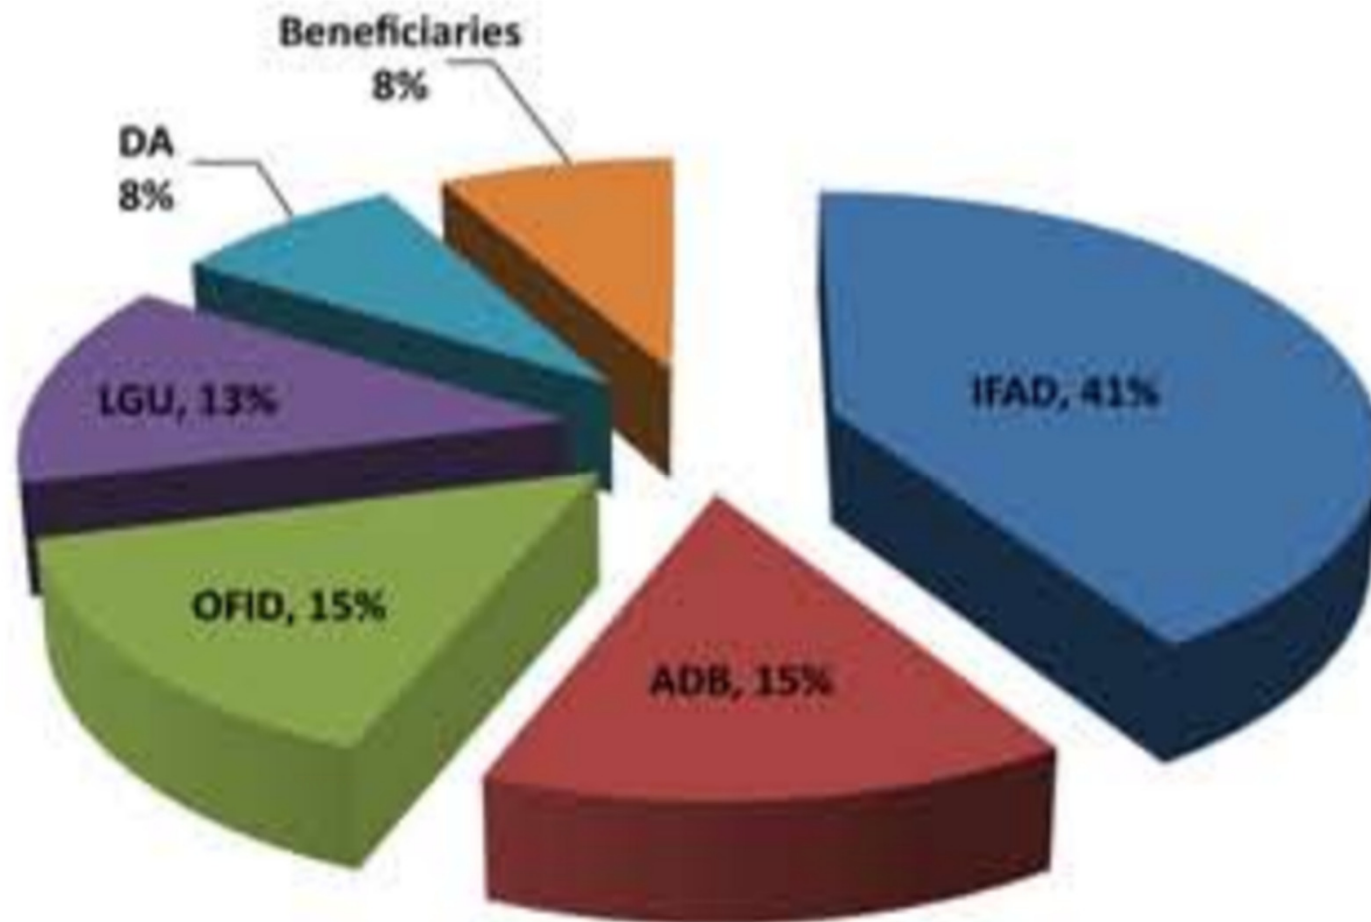

## FUNDING INSTITUTIONS

- International Fund for Agricultural Development (IFAD)
- Organization of Petroleum Exporting Countries (OPEC) Fund for International Development (OFID)
- Asian Development Bank (ADB)

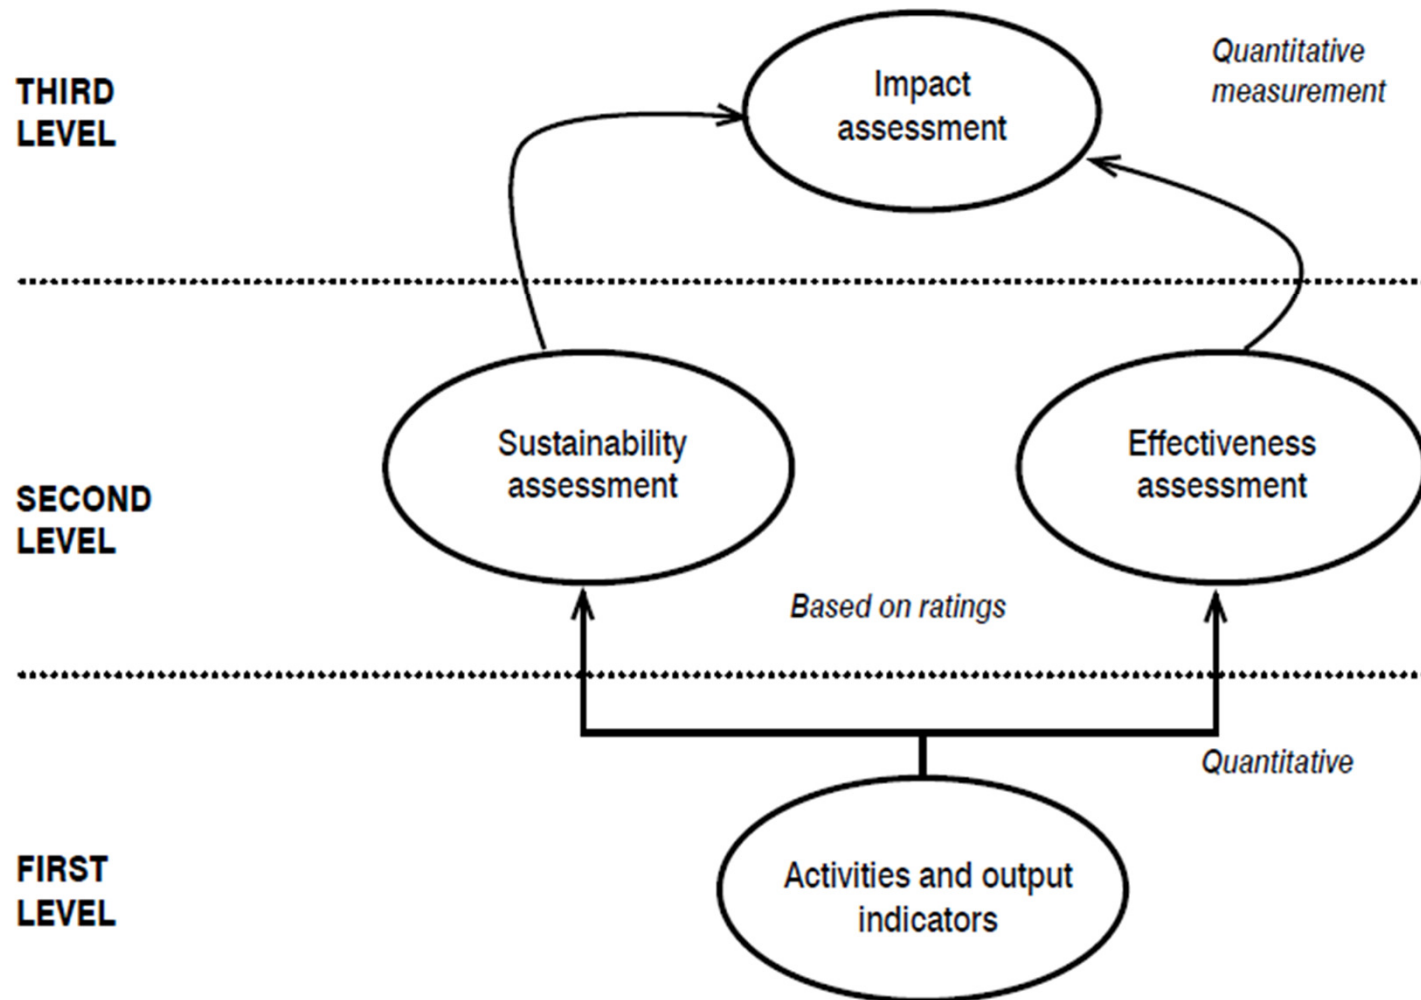

# FRAMEWORK AND METHODOLOGY

# IFAD'S RESULTS AND IMPACT MANAGEMENT SYSTEM (RIMS)

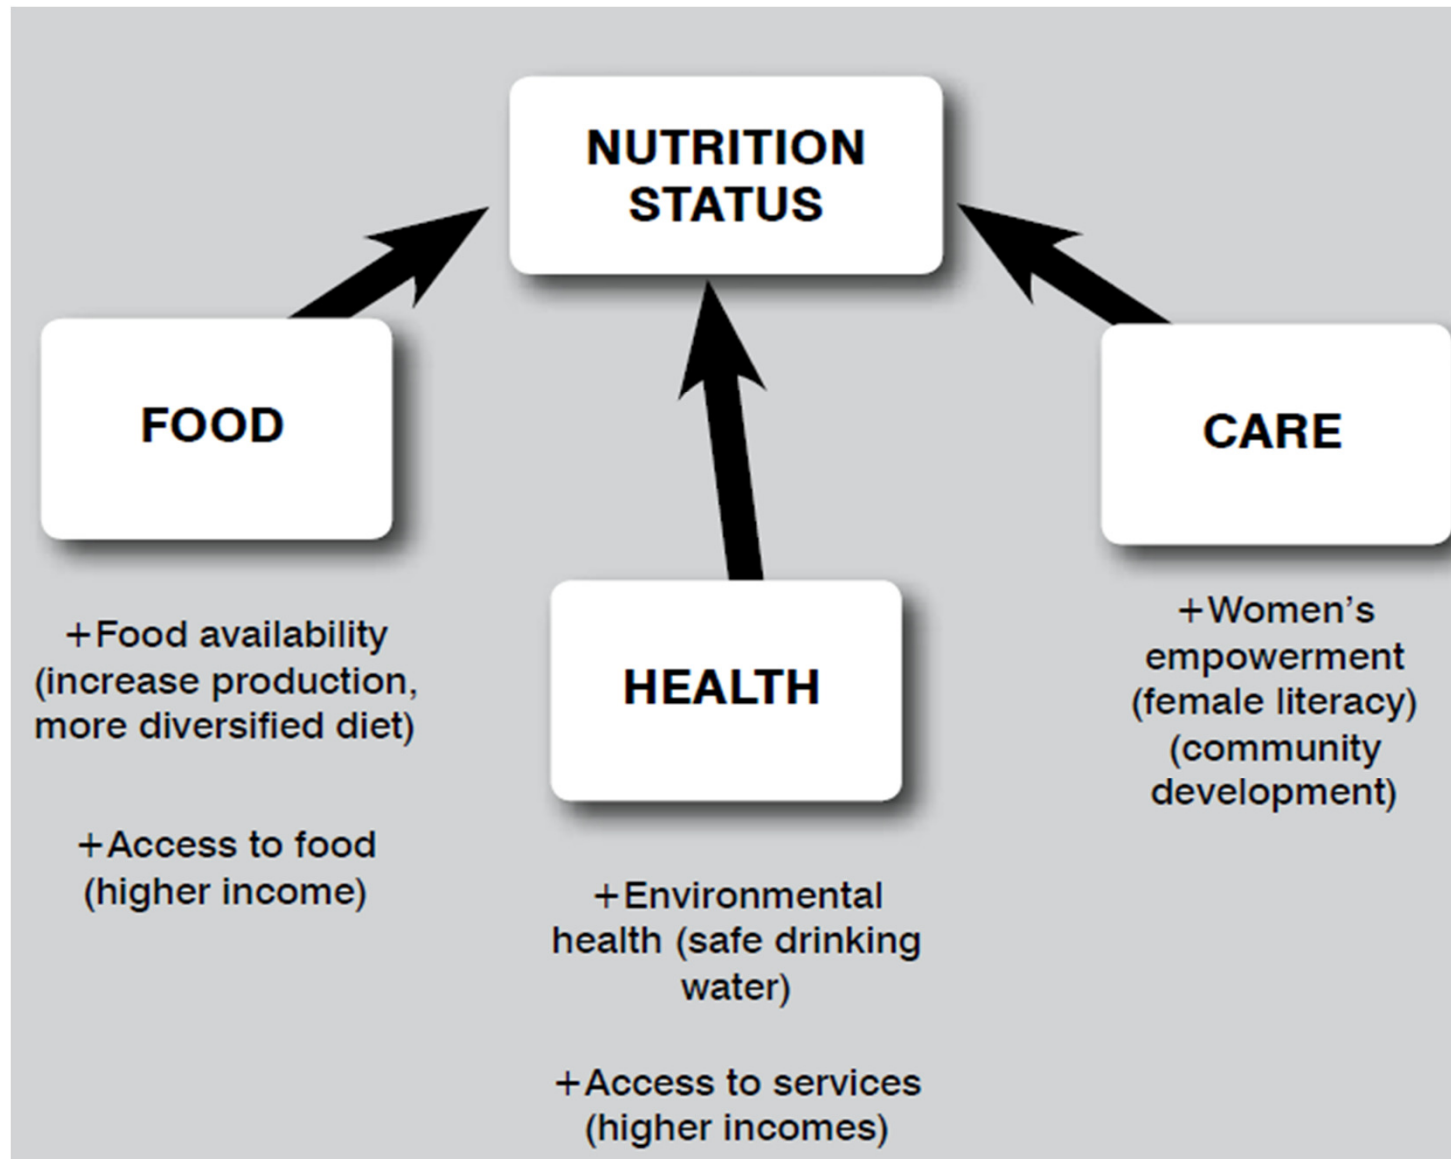

## 2 KEY INDICATORS

- (1) Household assets – aims to capture evolution of the household asset index over time & provides a basis for studying changes in relative wealth of the project's target group
  
- (2) Child nutrition –based on WHO & UNICEF standards for measuring child height & weight to capture (a) chronic malnutrition (stunting or height-for-age); (b) acute malnutrition (wasting or weight-for-height); (c) proportion of children underweight (weight-for-age)

# WHY MALNUTRITION?

# Methodology

**(1) Focus Group Discussion (for qualitative analysis)**

**(2) Household Survey**

- 900 respondents
- Sampled from subprojects: **R**eforestation, **A**groforestry, **L**ivelihood Interest Groups, & **I**nfrastructure
- Two stage-sampling:
  - (a) Selection of Beneficiary Barangays
  - (b) Selection of beneficiary households in each of the chosen barangays

# Methodology

- Sampling of Impact Barangays - **30 barangays** out of the 170 barangays covered by CHARMP2

Province	# of Municipalities	# of Barangays	Proportion of Barangays to Total	Distribution of Sample Barangays (30)
Abra	8	32	0.19	6
Apayao	3	15	0.09	2
Benguet	8	35	0.21	6
Ifugao	5	20	0.12	4
Kalinga	5	20	0.12	4
Mt. Province	8	48	0.28	8
<b>Total</b>	<b>37</b>	<b>170</b>		<b>30</b>

# PROJECT COMPONENTS

# 1. SOCIAL MOBILIZATION, PARTICIPATORY INVESTMENT PLANNING AND LAND TITLING (SMPIPLT)

- Aimed to promote active **participation of the communities** including target groups (indigenous people's organization) in **planning, implementation, monitoring and evaluation** of community dev't plans and projects

# COMPONENT 1

**SOCIAL  
MOBILIZATION,  
PARTICIPATORY  
INVESTMENT  
PLANNING  
AND LAND  
TENURE**

**Community  
Mobilization**

**Social  
Preparation**

**Participatory  
Project  
Investment  
Planning**

**Participatory  
Monitoring and  
Evaluation**

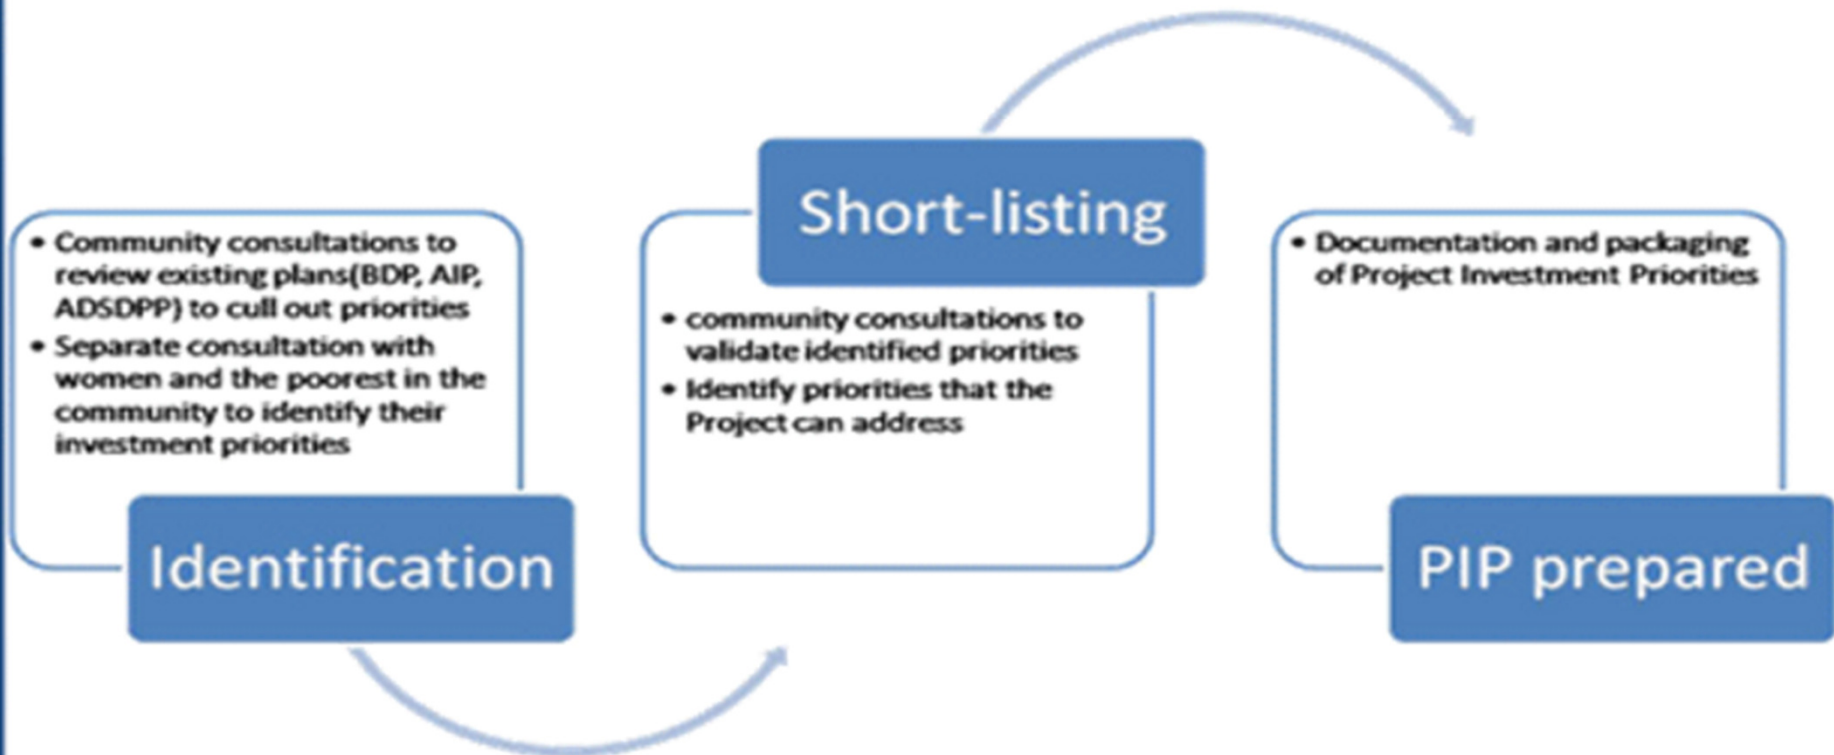

**Facilitation  
of Ancestral  
Domain  
Titling**

**Survey  
Delineation of  
AL/AD**

**Registration of  
Titles**

# PARTICIPATORY INVESTMENT PLANNING PROCESS

## Planning Process: Level 1 – Culling out of Investment Priorities

## Planning Process: Level 2 – Preparation of Annual Work Plans

Preparation of Barangay Annual Workplan & Budget based on identified PIP's

- Project investment Plan doable in 7 years; ranked according to priority
- Watershed conservation & agroforestry
- AAIGA
- Rural infrastructure (new /rehab & for maintenance)
- ID of bgy's covered in ADSDPP planning
- ID of CADT/CALT for processing

Preparation of Municipal Annual Work Plan and Budget as consolidated from barangay annual workplans

- Consolidation of Bgy PIP at municipal level
- Ranking of PIP per municipality & short listing:
  - CWC/FMA
  - AAIGA
  - RID
- Consolidation of bgy's ID'd for ADSDPP
- Consolidation of ID'd CADT for processing
- Consolidation of ID'd CALT for processing

Preparation of Provincial Annual Work Plan and Budget as consolidated from municipal work plans

- Consolidation of PIP per province
- Final list of ID'd areas for ADSDPP planning per province
- Final list of CADT for processing per province
- Final list of CALT for processing per province

## Planning Process: Level 3 – Preparation of Project Annual Work

### Plan and Budget

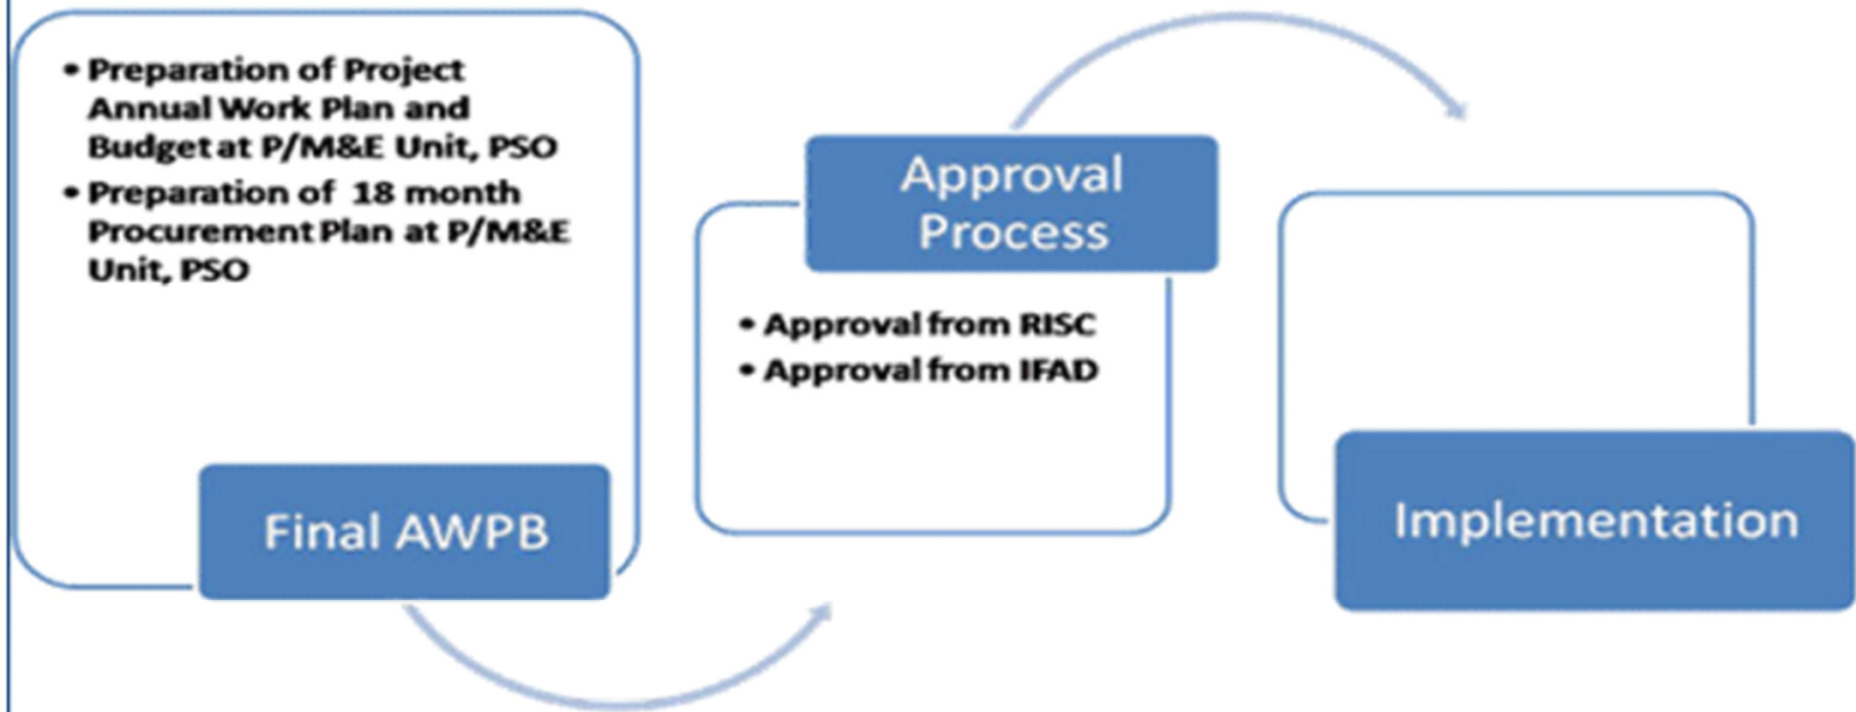

- Preparation of Project Annual Work Plan and Budget at P/M&E Unit, PSO
- Preparation of 18 month Procurement Plan at P/M&E Unit, PSO

Final AWPB

Approval Process

- Approval from RISC
- Approval from IFAD

Implementation

## 2. COMMUNITY WATERSHED CONSERVATION, FOREST MANAGEMENT AND AGROFORESTRY (CWC/FMA)

- **Aimed** to promote the rehabilitation of watersheds in the target areas to enhance conservation of major watersheds in CAR and to improve the socio-economic well-being of indigenous communities
- **Sub-components:**
  - a) Community Watershed Conservation and Reforestation
  - b) Promotion of Agroforestry

## 2. CWCFMA (CONT)

- **Sub-components:**

- c) Development of Innovative Watershed Conservation Mechanism

- Innovative Watershed Conservation Financing Mechanisms

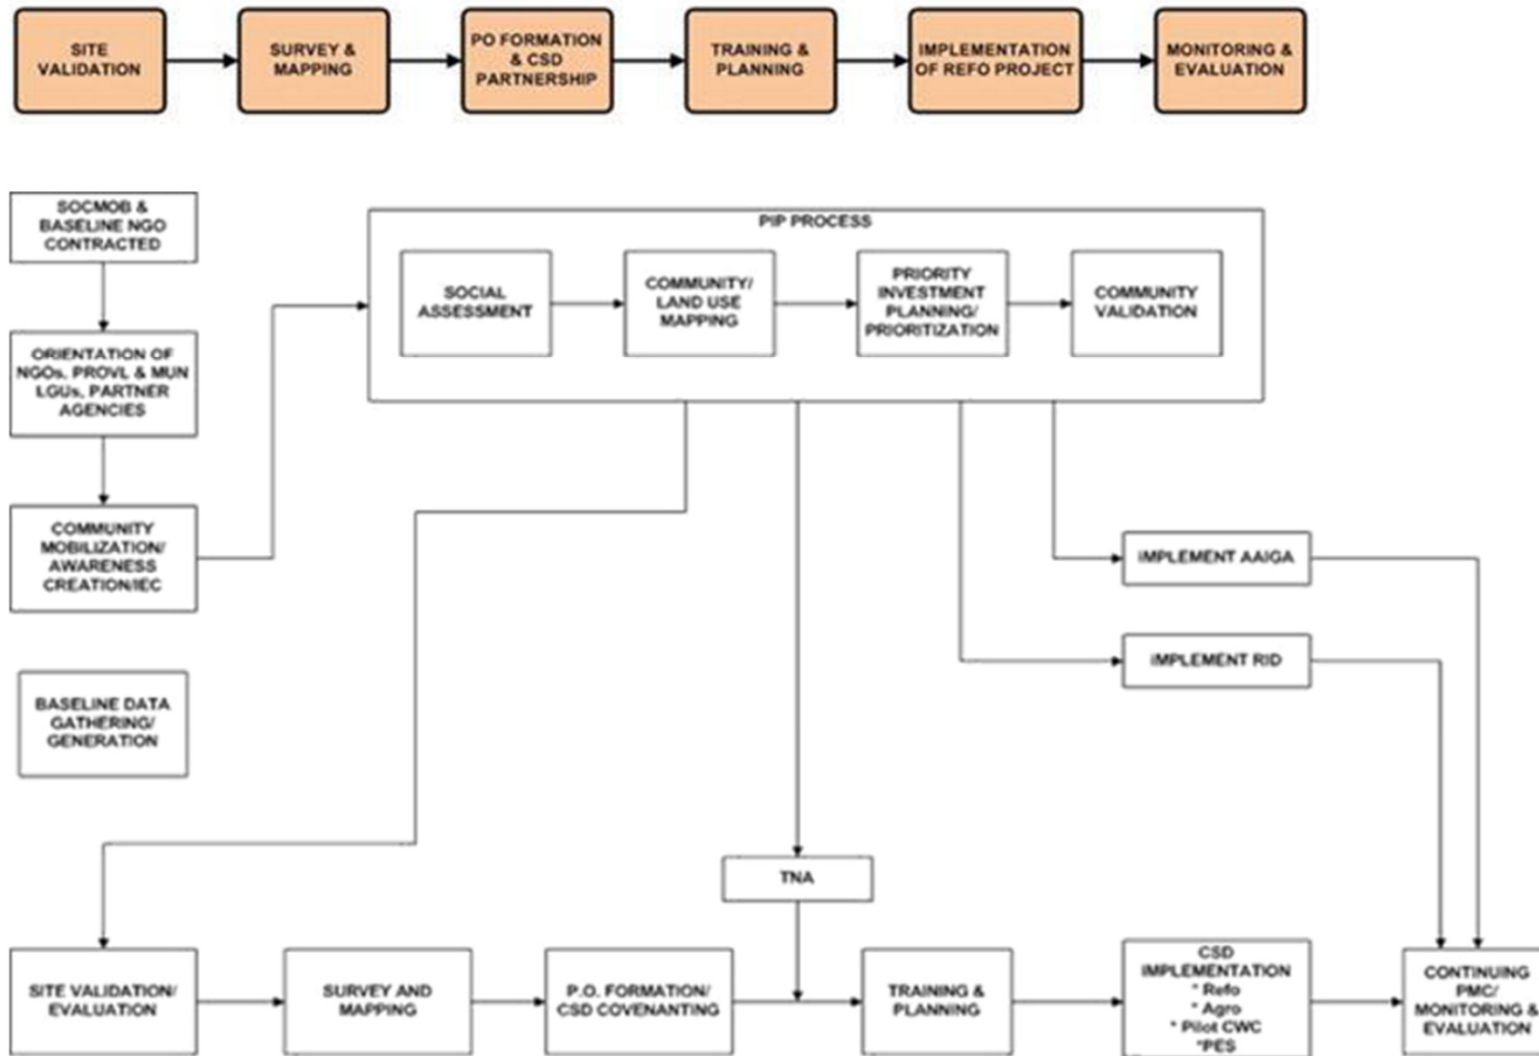

- Documentation of Indigenous Forest Management Systems

- Pilot Community Forest Management

# REFO PROJECT FLOW CHART

### 3. AGRICULTURE, AGRIBUSINESS AND INCOME GENERATING ACTIVITIES (AAIGA)

- **Aimed** to improve the production of crops through sustainable and ecologically friendly farming systems, promote agribusiness through improvement of value chains, and introduce or improve non-farm rural small enterprises as income generating activities to increase family income in the target communities

○ **Sub-components:**

- a) Promotion of Agribusiness and Marketing
- b) Provision of Agricultural Support Services
- c) Microfinance and Income Generation  
through Micro-enterprise
- d) Small Rural Enterprise Development

## 4. RURAL INFRASTRUCTURE DEVELOPMENT (RID)

- **Aimed** to improve rural infrastructure essential for the promotion of agricultural production and rural –based livelihood through the mobilization of beneficiaries
- **Sub-components:**
  - a) Farm-to-Market Access
  - b) Community Irrigation
  - c) Domestic Water Supply
  - d) Community Infrastructure

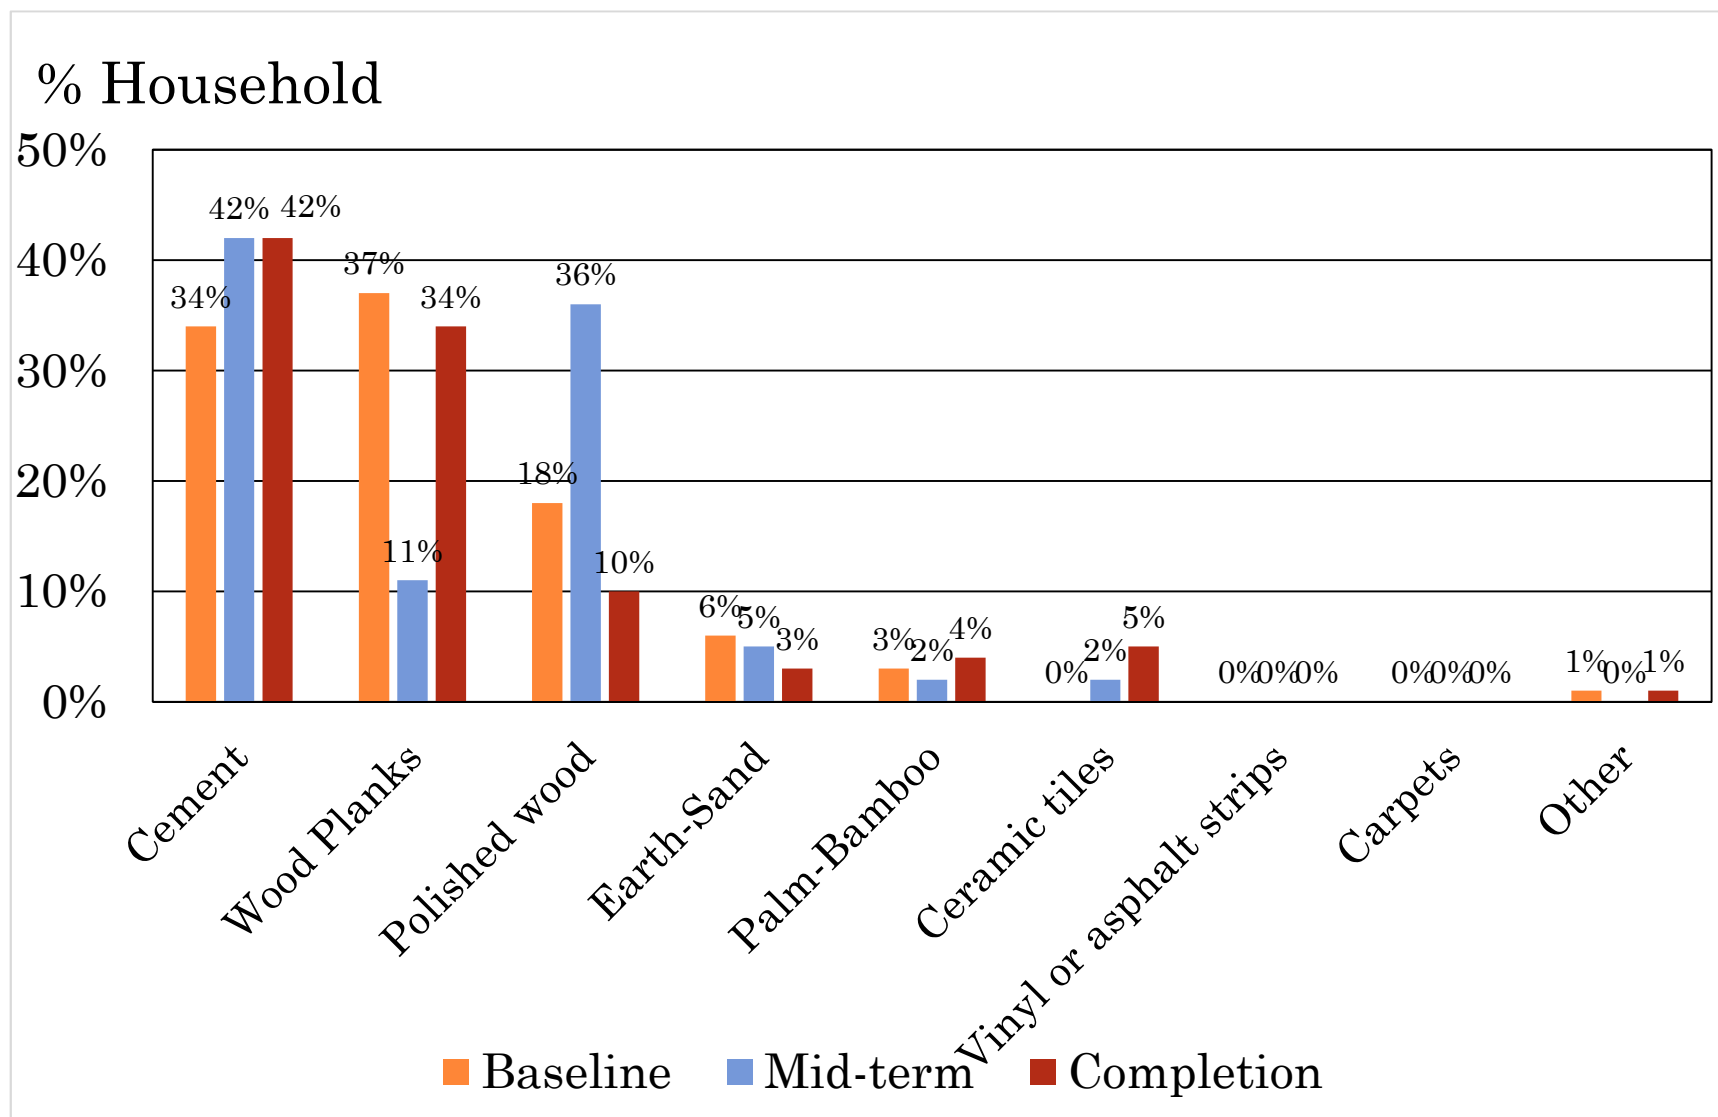

# RESULTS

# Percentage of households, by gender of household head

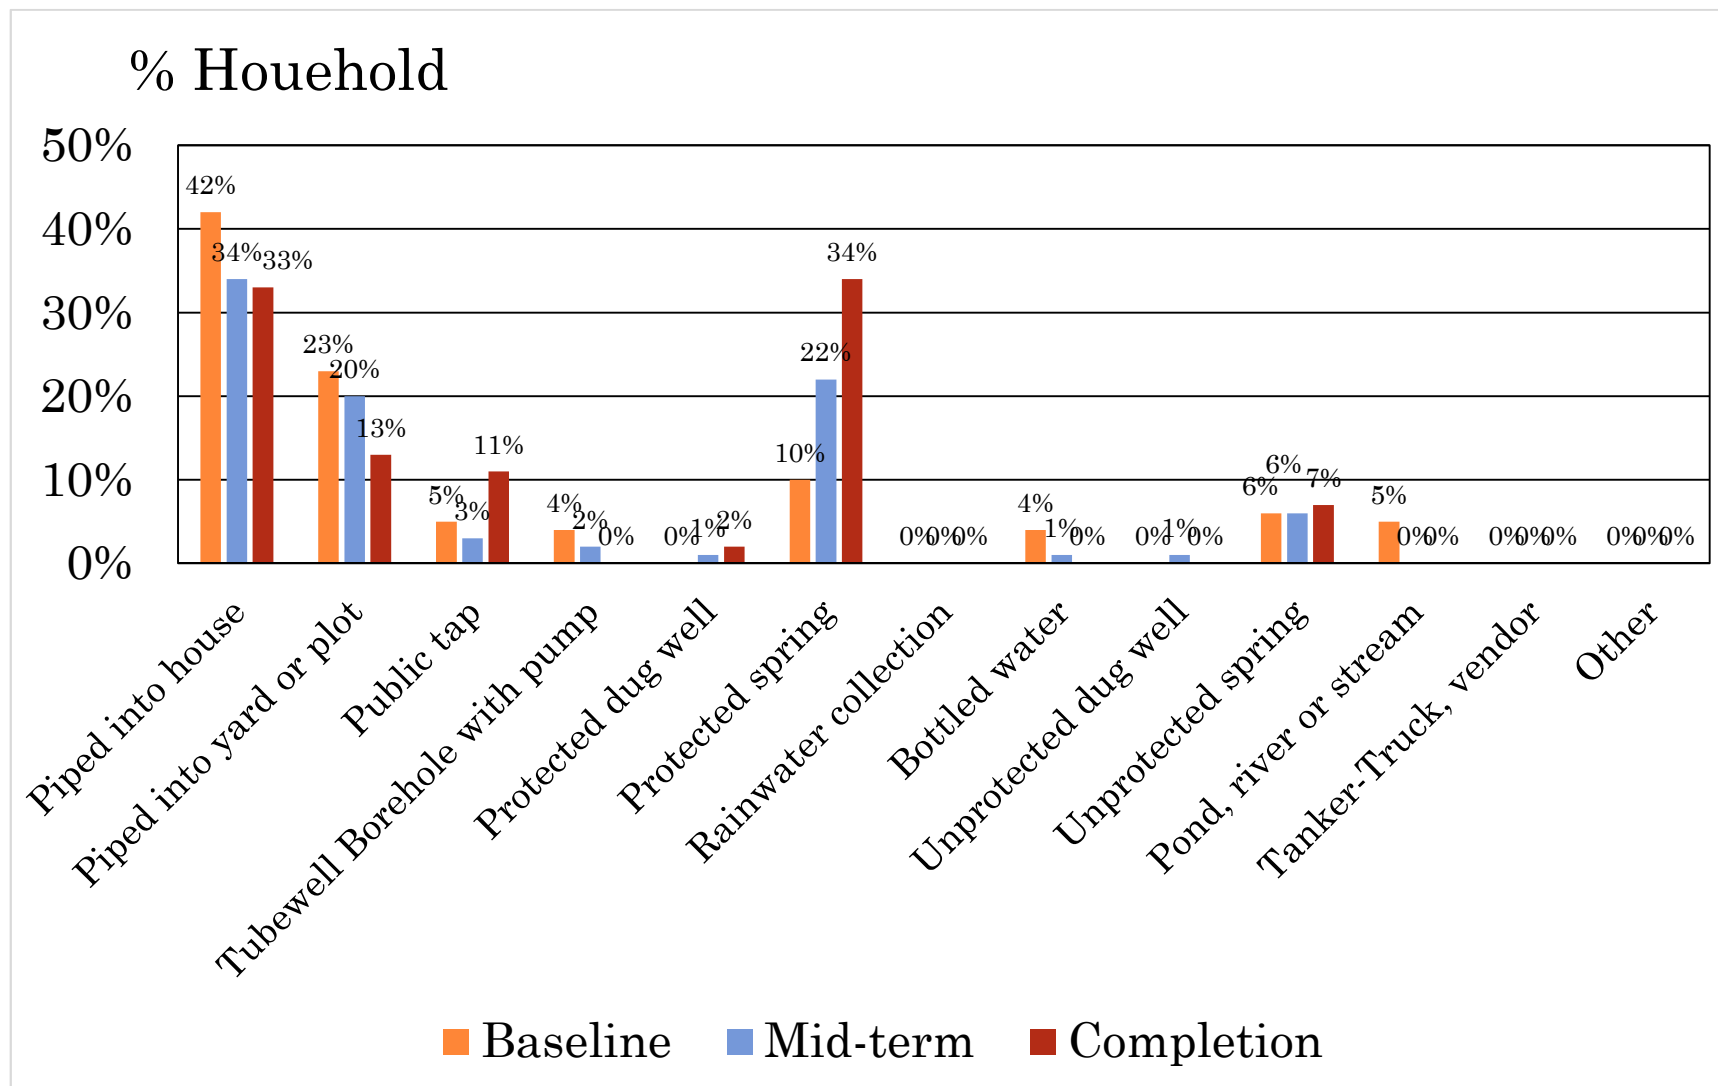

Source: 2017 RIMS Survey

# Percentage of households, by type of floor owned

Source: 2017 RIMS Survey

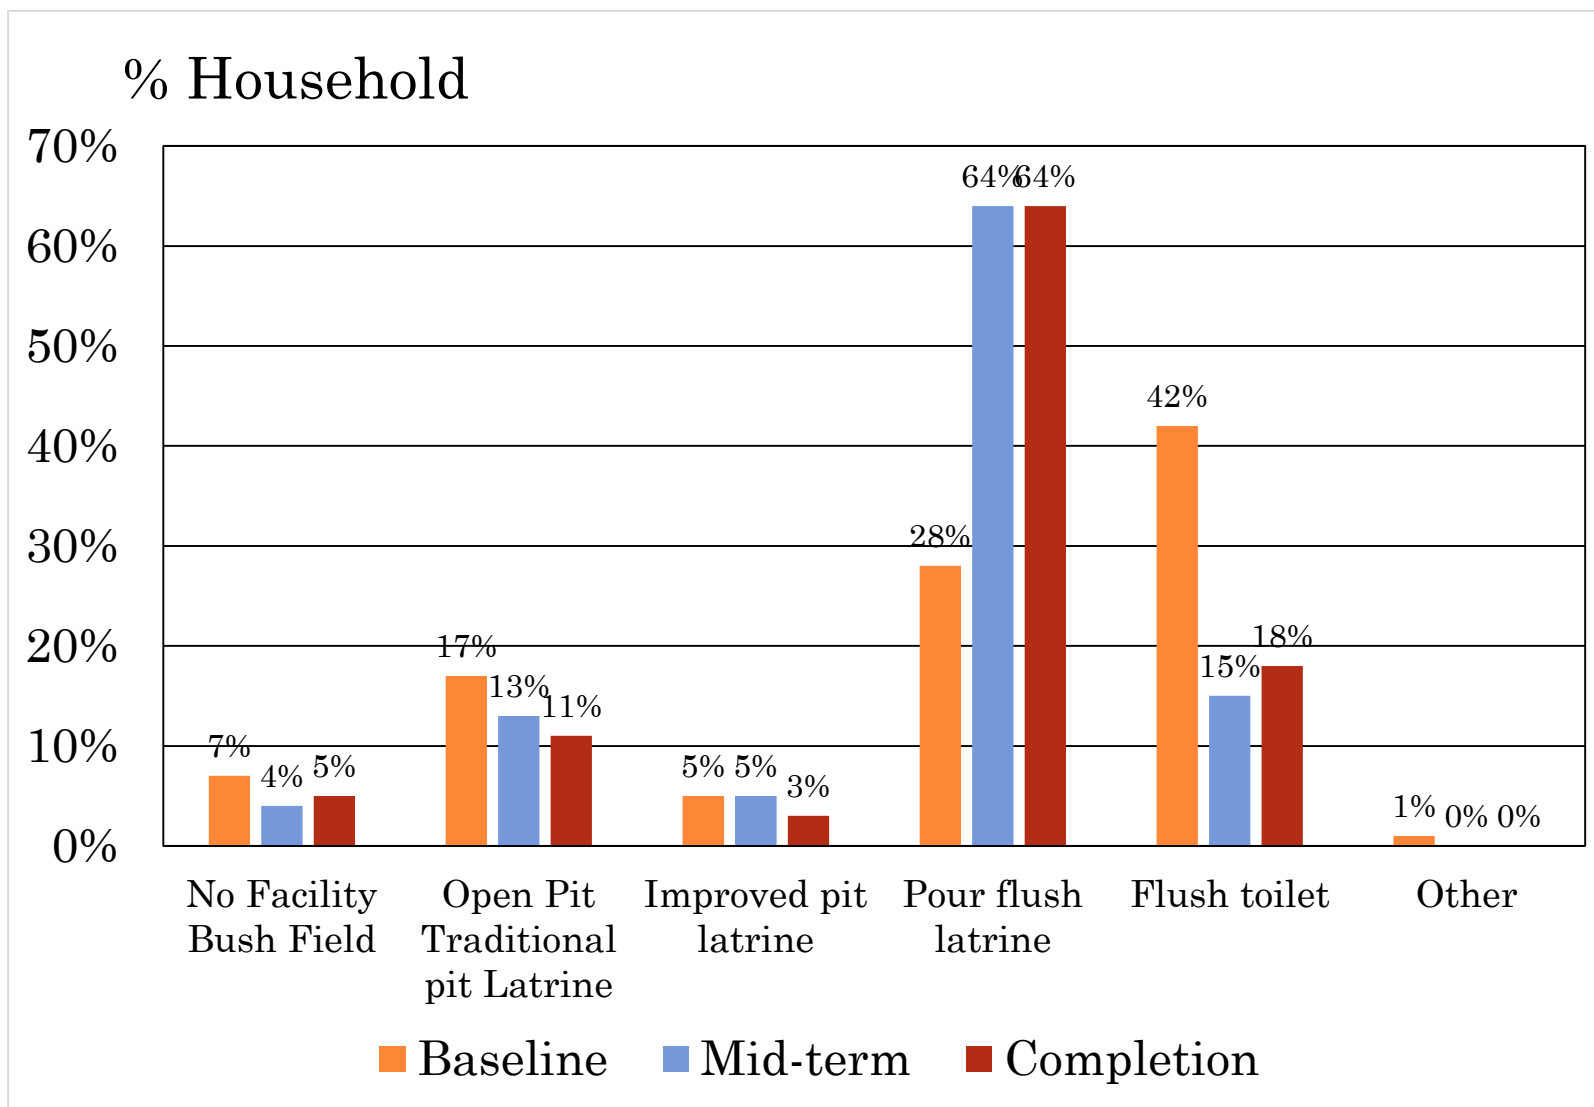

# Percentage of households, by source of drinking water

Source: 2017 RIMS Survey

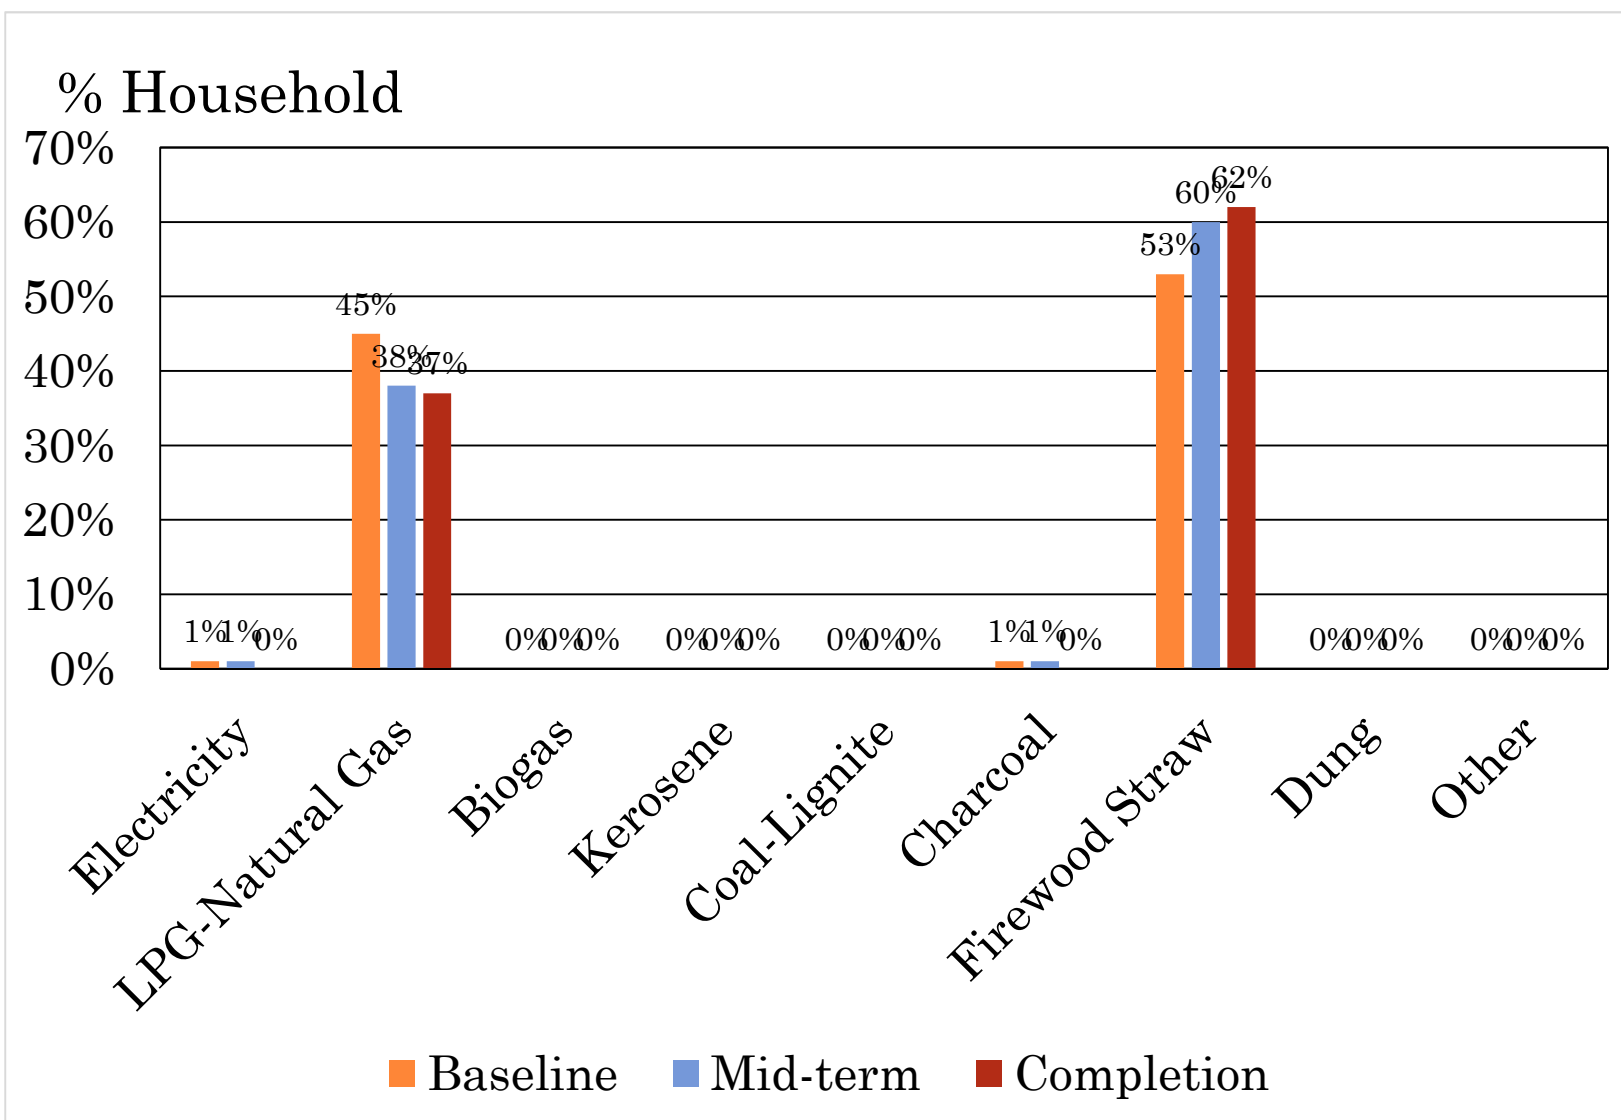

# Percentage of households, by type of sanitation used

Source: 2017 RIMS Survey

# Percentage of households, by type of cooking fuel used

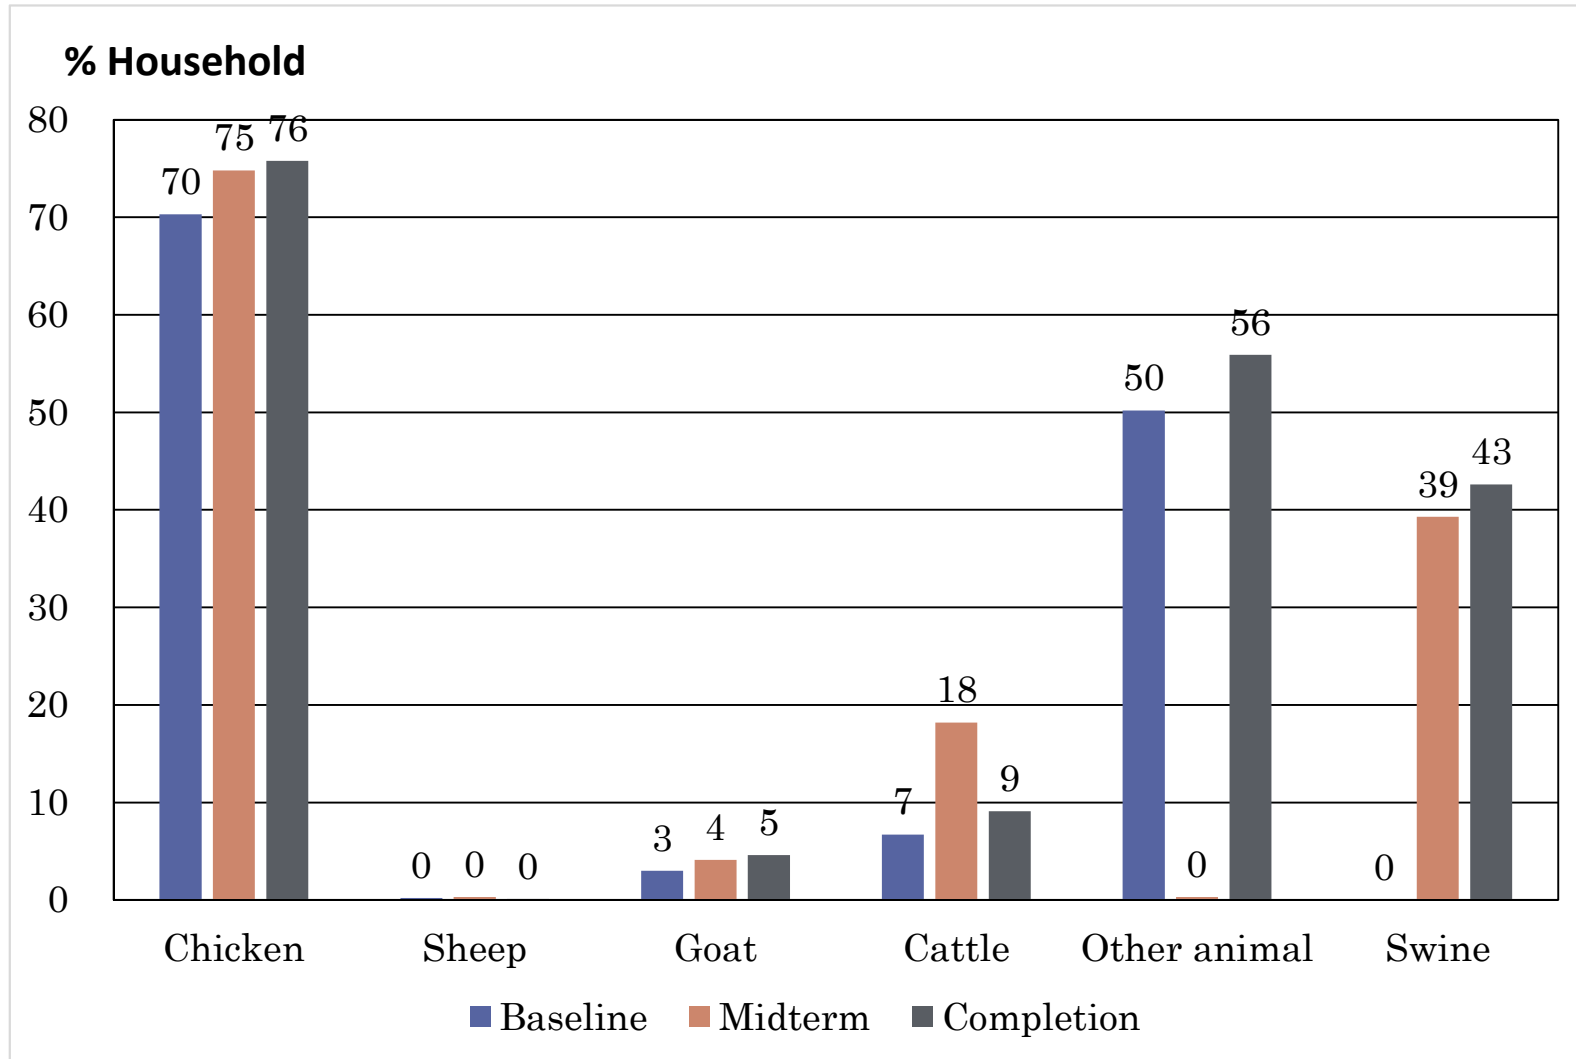

Source: 2017 RIMS Survey

# Percentage of households, by type of asset owned

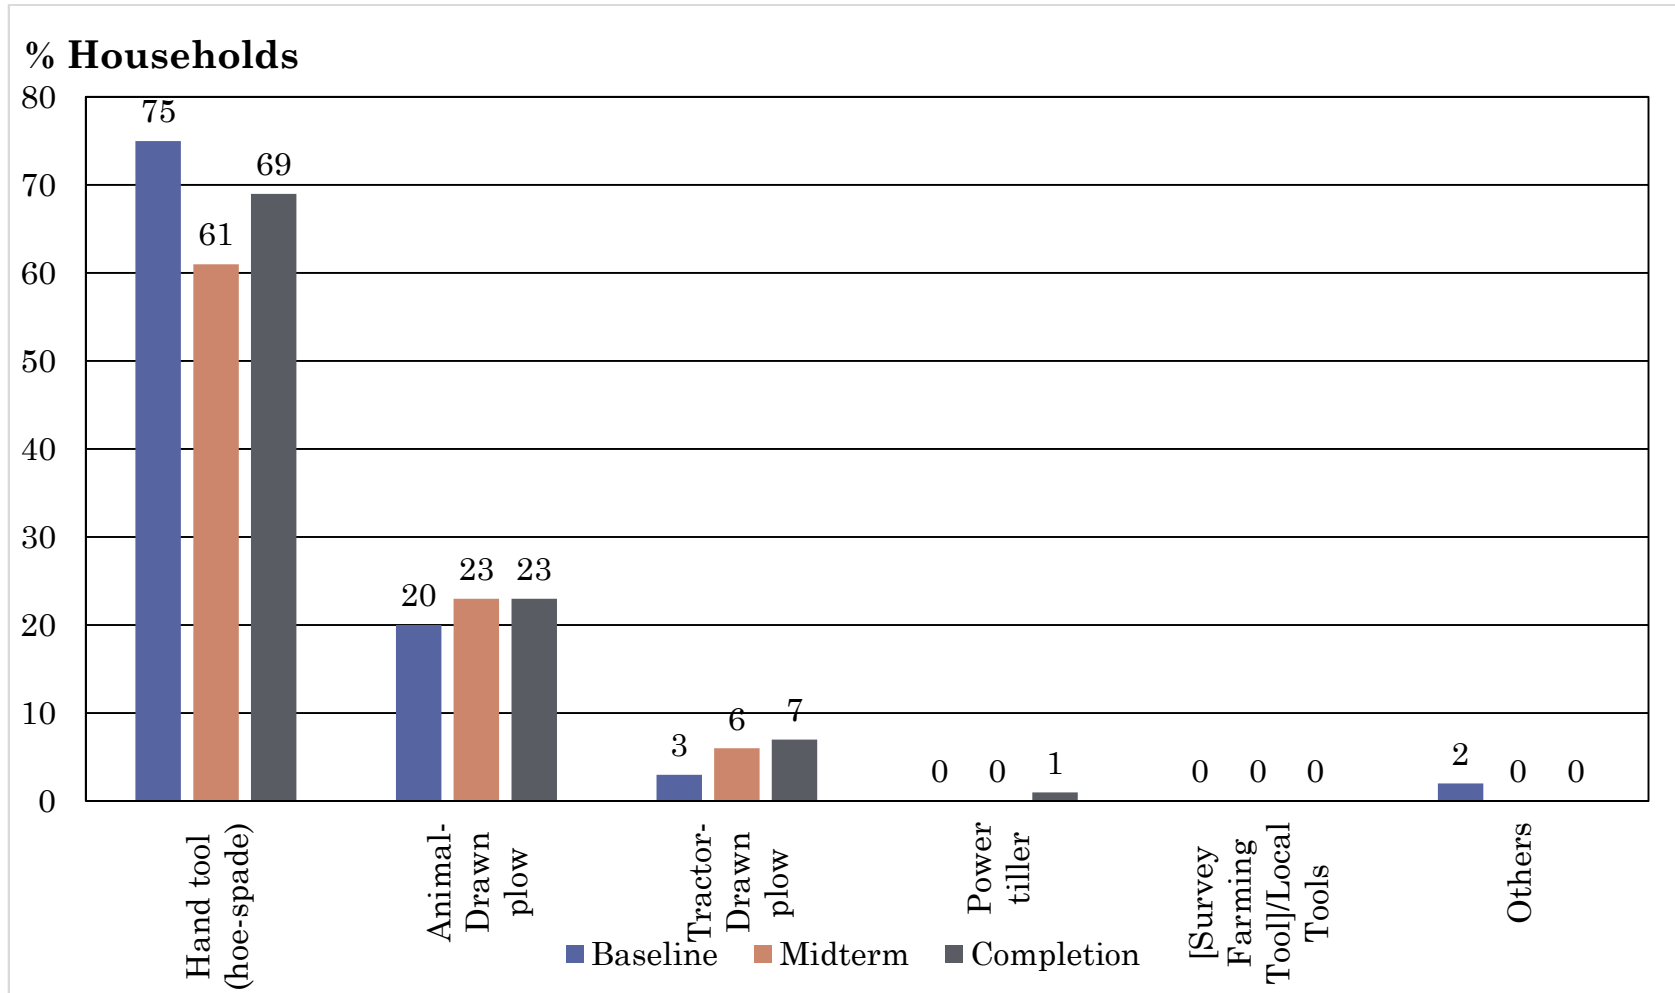

Source: 2017 RIMS Survey

# Percentage of households, by type of animal owned

Source: 2017 RIMS Survey

# Percentage of households, by tool used to cultivate farmland

Source: 2017 RIMS Survey

## **House Ownership**

- Most of the households interviewed (89.1%) owned their house.
- A small percentage of about 10 percent have free use of their houses while a much smaller percentage of them (0.9%) rented their houses.

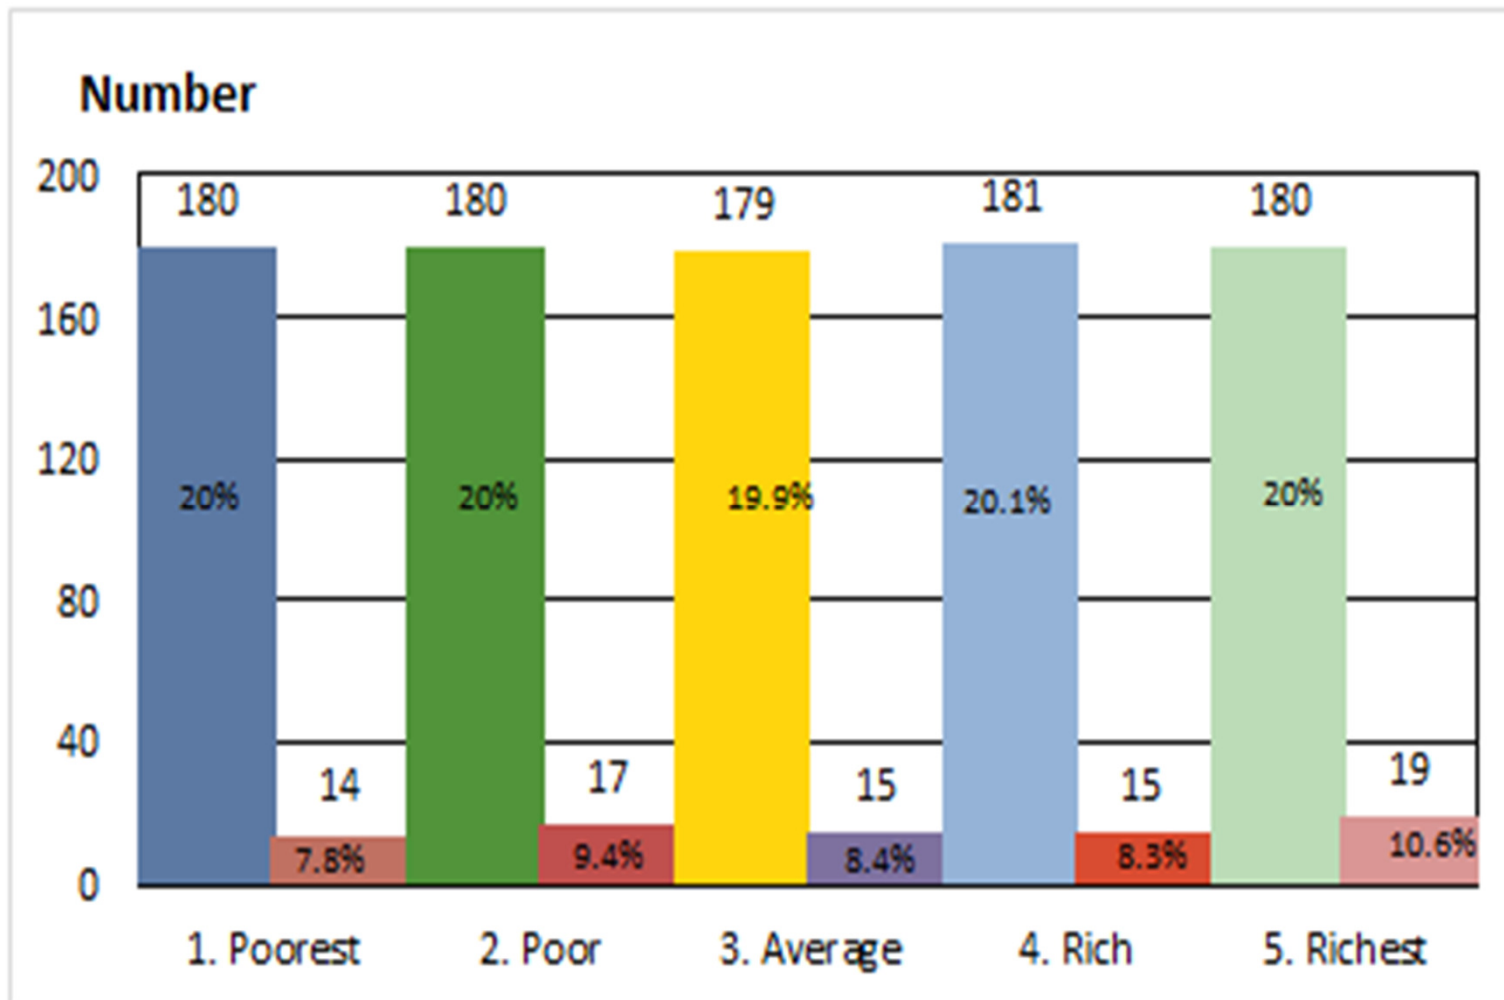

## **Room Density**

- Eighty five percent of the respondents had rooms exclusively used for sleeping.
- The average number of sleeping rooms is 2.3.
- About 41% of the respondents had 2 sleeping rooms. 23.2% only had 1 room. 20.9% had 3 rooms and about 10.2% had four rooms.

# CHILD NUTRITION: BASELINE

% of children

Source: 2017 RIMS Survey

# CHILD NUTRITION: COMPLETION

% of children

Source: 2017 RIMS Survey

# CONCLUSIONS

## REFLECTIONS & CONCLUSIONS

- The project has mixed results but enough successes to warrant its extension with some adjustments
  - Wealth distribution improved but child nutrition deteriorated
  - Participatory planning is deemed a big success with communities highly engaged
  - M&E however is something which needs to be improved
- Sustainability and effectiveness were generally highly rated by respondents – but only time will tell as most Peoples Organizations are relatively young

THANK YOU
