

touchpoint 2010 International Conference

INVITED KEYNOTE SPEAKER

“Guided by curiosity regarding human interaction and communication in various technical systems, I have participated in a range of projects. These projects have, in different ways, studied how humans have been more or less successful in their strive to accomplish things together when interacting with or via technical systems to solve specific tasks, create specific products as well as creating new possibilities for learning.” – DR. MARIA SPANTE

MARIA SPANTE holds a PhD position at Chalmers University of Technology, Department of Technology Management and Economics, Division of Technology and Society. Dr. Spante is a prolific researcher. Her current research expertise focuses on social interaction in technical systems, technical systems and human relations, and learning and interactive media.

We look forward to hear her Touchpoint 2010 Presentation entitled,

“Interactivity, Visualization and Learning: Challenges and Possibilities”.
