The External Relations and Internationalization Office
in partnership with the
College of Science - Office of the External Affairs Director

*invite everyone to
a lecture entitled*

**"THE FIRST HUMANS OUT OF AFRICA:
THE CASE OF DMANISI"**

by Ms.
Mylene Quinto Lising

"Dmanisi was once a thriving city along the Silk Road and Georgian archaeologists were excavating the site for artefacts from the medieval period when they found a rhinoceros tooth. Soon after, they would find a human jaw, both were determined to be from 1.77 million years ago. Eventually, there would be five very primitive human skulls among other human and animal fossils found at Dmanisi. Ms. Lising will discuss the discoveries at Dmanisi and their profound impact on the ideas about human evolution".

Mark your calendar!

September 28, 2016 (Wed)

2:30 - 5:30 PM

Animo Labs, 12th Floor, Henry Sy Sr. Hall

The speaker, **Ms. Mylene Quinto Lising**, is a member of the Rizal Kalinga Expedition and the first Filipino Archeologist to excavate at Dmanini, Georgia.

She is a holder of

Erasmus Mundus International Master in Quaternary and Prehistory from Muséum National d'histoire Naturelle, Paris, France and a Master's degree in Archaeology, specializing in Cultural Heritage Management from University of the Philippines, Diliman, Quezon City, Archaeological Studies Program.
