| 37. Thailand   | 38. UAE       | 39. United States | 40. Vietnam     |

### **COVID-19 Travel Advisory for Guests**

Guests should be informed of DLSU Travel Advisories. Guests who have been to Level 3 and Level 4 countries should be advised of the University's 14-day self-quarantine requirement.

#### **General Considerations**

Those who have travel plans are strongly advised to factor in the possibility of extended stay due to lockdown, being quarantined in the foreign country, and another quarantine in the Philippines upon return, in making decisions about their travel plans.

For those traveling to other countries, we are emphasizing the importance of following health advisories of the country to which they are going; identifying hospitals nearest their location; and keeping themselves updated with the latest and credible information about COVID-19.

The University will continue to monitor the evolving COVID-19 situation and update the community through timely release of bulletins.

We continue to seek the Lasallian community's cooperation and shared responsibility in preventing the spread of the virus. With proper information and vigilance, we will be able to effectively maintain a healthy learning environment.
