

**Course Code:** ACTFMKT

**Course Title:** Financial Markets

**Course Description:**

This course is an advanced financial management course that focuses on financial markets and institutions. It covers financial institutions' management, operations, products, and services; the Philippine financial system and government regulations; commercial banking; various securities markets; and risk management of financial institutions. These concepts and principles are globally applied but locally customized to fit the Philippine scenario and the requirements of domestic financial, corporate, and individual entities.
