

COURSE CODE: THSDIS1

COURSE TITLE: Thesis 1

COURSE DESCRIPTION:

The IBS program is designed to provide students the opportunity to explore a business-related topic, idea or research interest that extends previous knowledge and broadens experience. The student is viewed as a consumer of research rather than a practitioner. In consultation with a discipline appropriate faculty member, the students have the unique opportunity to select a research topic and work throughout the trimester under the guidance and supervision of a faculty member. In view of the interdisciplinary nature of the IBS program, the students are given several options: a business plan, a marketing/service plan, a basic legal research paper, or an "I-Research" paper. The choice of topic is not tied to the commerce majors and electives the students have taken. A presentation before a panel of faculty members is required to pass the course.

DEPARTMENT: Decision Sciences and Innovation Department

TEXTBOOK:

- No prescribed text. Guidelines, forms, and templates will be provided in Canvas. This is not a lecture course.
