

Office of
Student
Affairs

Dear **Lasallian Student**,

Greetings in St. La Salle!

De La Salle University adheres and actively responds to the call of the government for a drug-free nation. To support efforts to minimize, if not totally eradicate, the problem of illegal drugs, the University developed an anti-drug use and abuse program called **Lasallians’ Fight Against Drugs (LFAD)**, which includes **mandatory drug testing** activities for students. Mandatory drug testing activities are conducted to determine the prevalence of drug use among students and provide the appropriate interventions for those who test positive.

The **LFAD Mandatory Drug Testing** is one of the admission requirements for **incoming students** and is included in the Annual Physical Examination (APE) of enrolled students. The Health Services Office shall determine specific schedules for mandatory drug testing. A contracted DOH-accredited drug testing medical team will collect urine specimens from students on campus.

Given this, please be informed that **you are required to undergo drug testing**. Rest assured that the University shall not publish results, whether positive or negative. Further, positive results will be treated with utmost care and confidentiality and **shall not be used in disciplinary or criminal proceedings**.

Thank you for supporting our efforts to make the University a safe and healthy space for all.

Very truly yours,

Ms. Jaymee Abigail K. Pantaleon
Dean, Student Affairs
