BiTMICRO Networks International, Inc. (Philippines)

BiTMICRO is a leader in enterprise flash storage for mission-critical computing including cloud, hyperscale, big data analytics, and virtualization, is advancing business performance, productivity, and reliability with innovative solid state storage solutions.

Solving real-world challenges, BiTMICRO has been developing patented ASIC designs and embedded firmware and software technology since its founding in 1995.

Built upon an established history in ruggedized military and mission-critical IT applications, BiTMICRO actively develops, deploys, and supports versatile storage solutions and is best known for exceeding the extreme performance and data integrity required for enterprise, industrial, and military environment.

BiTMICRO is headquartered in Fremont, California and has a subsidiary in the Philippines.

OJT VACANCIES:

Computer Studies Students
- Candidate must be currently pursuing a degree in :
    - BS in Computer Science with specialization in Software Technology and Network Engineering
    - BS in Computer Science, major in Computer Systems Engineering
    - BS in Information Technology
    - BS in Information System
- Will be trained to understand, learn and perform hands-on activities in:
    - Software Design and Development
    - Firmware Design and Development
    - Application-Specific Integrated Circuit Design
    - Web Design and Development

Engineering Students
- Candidate must be currently pursuing a degree in :
    - BS in Electronics and Communications Engineering
    - BS in Computer Engineering
    - BS in Mechanical Engineering
- Will be trained to understand, learn and perform hands-on activities in:
    - Printed Circuit Board Design
    - Circuit Design
    - Mechanical Design
    - Test Engineering
    - Product Engineering

Liberal Arts Students (Requirement of Human Resources Department)
- Candidate must be currently pursuing a degree in:
    - AB Psychology
    - BS Psychology
    - AB Behavioral Sciences major in Organizational Development and Social System Development

- Will be trained to understand, learn and perform hands-on activities in:
    - Recruitment and Selection
    - Policy Implementation
    - Employee Relations
    - Employee Records Management

Marketing (Multi-media) Students
- Candidate must be currently pursuing a Bachelor's Degree in Marketing, Advertising, Communications, Multi-Media Art, Information Technology and / or its equivalent.
- Students specializing in Arts, Creative, Graphic Design or equivalent are preferred.
- Strong design sense and presentation skills.
- Hands-on knowledge on Adobe applications specifically InDesign and Photoshop.
- Knowledge in HTML is an advantage.
- Some AutoCAD, Dreamweaver, Fireworks, Premier, After Effects, and / or Flash experience is preferred.
- Proficient in MS Office (Word, Excel, PowerPoint and Visio)

Other requirements:
3rd / 4th year or graduating students.
Willing to be assigned in Ortigas Center, Pasig City.
