

The implementation

strategy of Indonesian National Qualification Framework at Biology Study Programme, Sunan Kalijaga Islamic State University, Yogyakarta: a case study in delivering courses for diffable students

AUN-QA CRITERI 8 STUDENT QUALITY AND SUPPORT

ARIFAH KHUSNURYANI, M. FAKHRI HUSEIN

Quality Assurance Office,
Sunan Kalijaga State Islamic University,
Yogyakarta, Indonesia

Sunan Kalijaga Islamic State University recognises that education quality assurance is an evitable foundation for its sustainable development in the globalisation age. It is committed to the development of quality assurance processes which are consistent with the Indonesian National Qualification Framework (KKNI) and the ASEAN UNiversity Networ-Quality Assurance (AUN-QA) Framework. Sunan Kalijaga Islamic State University develops three core values, which are integrative-interconnective, dedicative-innovative, and inclusive-continuous improvement. As our university declare as inclusive university, therefore our university accept diffable students and develop Diffable Service Center since 2007.

The paper shares experiences of applying strategies of teaching and learning in Biology Study Programme in developing curriculum, especially for inclusive student. Biology Study Programme have one deaf student since 2013. Therefore, Biology Study Programme collaborates with Diffable Service Center and develop some strategies in teaching and learning to support that diffable student. Diffable Service Center provide a volunteer who can use sign language and academic staff in Biology Study Programme got some training how to deliver courses for deaf students. Academic staff in Biology Study Programme arranged some discussion among lecturers and involving resource persons who are experts in this field.

The positive results reported are that academic staff could be able to design and deliver courses, while the diffable students shows some improvements in academic area and social skills. Other students also shows that they support the diffable student to get good achievement in academic whether non academic activities. For this achievement, Biology Study Programme got an award from Diffable Service Center of Sunan Kalijaga State Islamic University as diffable cring study program on 2018. Biology Study Program continuously encourages the academic staffs to use various models of teaching to enhance students deep and active learning, to enhance their professional competency of academic staff, and to converse collaboratively with their colleagues about how to better their academic standars.
