Faculty members elected as heads of PAASCU commissions

College of Computer Studies Associate Dean Dr. Nelson Marcos and former SENGONLINE College of Engineering Dean Dr. Rosemary Seva have been elected as heads of Philippine Accrediting Association of Schools, Colleges, and Universities (PAASCU) commissions in their respective fields.

Seva, a University Fellow, Industrial Engineering Department full professor, and GCOE assistant dean for Quality Assurance, will serve as chair of the Commission on Engineering and Architecture. Seva, a University Fellow, Industrial Engineering Department full professor, and GCOE assistant dean for Quality Assurance, will serve as chair of the Commission on Engineering and Architecture.

For his part, Marcos will serve as chair of the Commission on Computer Science and IT. The position of PAASCU Commission chair is mandated to plan and implement programs and projects and to provide a continuity forum to member schools. Likewise, the chair assures schools in their efforts towards quality improvement, and helps in making the accreditation process more relevant to member schools.

The chair will lead in operationalizing the functions of the Commission, coordinate and provide overall network, and serve as the Commission’s representation in all activities relating the existence of the Commission. The chair’s term of office is one full year.

A DLSU ALUMNA’S FIN-TECH STARTUP focused on trade finance won She Loves Tech Philippines 2019, a pitch competition for the country’s top female tech founders.

Headed by BSC Management of Financial Institutions graduate Maureen Nava Ledesma together with Jessica Manipon and Yroen Guaya Melgar, the winning company VESL enables SMEs to grow their business abroad through a trade credit insurance paid on a pay-per-invoice basis.

Likewise, alumna Mel Nava (AB Psychology and BSC Business Management) brought home the competition’s SparkUp Bayanihan Ecosystem Award.

Ten tech founders participated in the pitching competition hosted by QBO Innovation Hub (Philippines) and She Loves Tech, a global initiative showcasing the convergence of the latest trends in technology, entrepreneurship, and innovation to create opportunities for women.

VESL received gifts including a US$15,000 activate package courtesy of Amazon Web Services. It will compete at the global stage of She Loves Tech in Beijing, China.

She Loves Tech is the world’s largest competition for women and technology taking place in more than 20 countries this year.

Over the past four years, startups that have joined She Loves Tech have raised over $70 million in funding for companies all around the world.

FACULTY MEMBERS ELECTED AS HEADS OF PAASCU COMMISSIONS

Meanwhile, Chemical Engineering Department Full Professor Dr. Anthony Anto and Dr. Michael Angeli, Pioneers as well as Dr. Angel Carbonel of the Electronic and Communications Engineering Department have individual records of more than 100 Scopus published records.

As of August 2016, DLSU’s Scopus indexers with 10 or more publications in a Scopus database. The figure includes students, research assistants, and former and current faculty members.

From 2014 to 2016, Scopus records show that DLSU was the most productive research institution in the country.

TROPICS CONFERENCE HIGHLIGHTS “RIVER WALK”

The activity was part of the international performance studies conference “Tropical Performance” hosted by the University of the Philippines last August 5 and 6. It sought to discuss performances as Dr. Argel Bandala of the Electronics and Communications Engineering Department have individual records of more than 100 Scopus published records.

RVR SIKLAB AWARDS HONOR COUNTRY’S EXEMPLARY YOUNG LEADERS

Siklab Awards seek to recognize exemplary young leaders who institute sustainable businesses or programs and who pave the way for others to also make a difference in their fields. Siklab Awards will be mentored by RVR Nation-Building awardees.

The Grand Siklab Awards are granted to 100 of the best Siklab awardees who join the national conference each year.

Meanwhile, the 10th Ramon V. del Rosario Award for Nation-Building went to Dr. Jaime Aristide B. Alip, founder and managing director of Center for Agriculture and Rural Development (CARD MRI), who institute sustainable businesses or programs and who pave the way for others to also make a difference in their fields. Siklab Awards will be mentored by RVR Nation-Building awardees.

In connection, DLSU is currently working on an augmented reality component for data upload from participants.

Part of the project is developing protocols for data upload from participants.

In the activity, DLSU students incorporated the Guangxi and China.
